**Von Joy Fielding : Don't Cry Now** before purchasing it in order to gage whether or not it would be worth my time, and all praised Don't Cry Now:

KundenrezensionenHilfreichste Kundenrezensionen7 von 7 Kunden fanden die folgende Rezension hilfreich. Another formulaic triumph from Joy FieldingVon belladenaSure, the book consists of the formulaic whodunnit criterium: the

good are really the bad, the bad are really the good. But I won't lie! The book is fantaaastic! It's past 4 a.m now, I JUST finished the book and simply had to get out of my comfy bed to turn on the computer, get on-line and review this book. This book is quick-paced from page one, has great style, both in writing and innuendo and is a suspenseful book that leaves you breathless. And despite that being a tired cliché, I really did find myself holding my breath while reading this book! As far as mystery goes, it's a real teaser. I gave the book four stars because of the hokey Electra Complex quality that was inserted in the novel. I found it to be a tad melodramatic and even took a breath long enough to roll my eyes at the whole idea. I wish I could say more, but don't want to give away the ending! If Joy Fielding is around much longer, Mary Higgins Clark is going to have a real problem on her hands. Though I love MHC. Kudos to both authors. By no means great literature - I just love to be thrilled. 1 von 1 Kunden fanden die folgende Rezension hilfreich. spine-chilling but heart-warming at the same time Von Ein Kunde Joy Fielding has done it again. Yet another great read. One media critic has noted that Fielding captures the "everyday life" in great detail, which makes her characters all the more believable and her books more readable! This one is no exception. Bonnie is a courageous heroine, unafraid to confront and fight the danger to herself and her daughter. It's obvious to no one except Bonnie that someone's after them, and even worse, it becomes more obvious that it's someone who knows her every move. And it could honestly be anyone she knows. Everyone around her could have a motive for wanting Bonnie and Amanda out of the picture. Everyone. Have fun. .0 von 0 Kunden fanden die folgende Rezension hilfreich. One of the worst books by Fielding Von Dr. Nickwell, I read so far all her books and "Don't cry now" is the worst. I was quite disappointed. The Hero Bonnie keeps on asking herself many questions who the killer is, getting kind of paranoid, there are like 5 suspects, and it is always the one you suspect the less, Bonnie has the same troubles with her own family like her step-children had with their, the police is to no times available, the detectives always "out" when she needs to talk to them (hell i dunno how it is in USA, but in germany when u call, there is some guy u can talk to). everything will be solved in the end, killer is found, in the last 10 pages, the quickest end i have ever seen so far in a fielding book after 000 pages of boredom and maximum mild suspense. but u continue to read to know who the killer is. unfortunately Fielding follows always the same scheme, the hero is most of the time a rather weak, but beautiful woman, married to a cheating husband, having troubles with her parents and sibling, cannot defend herself but needs help of the men around her. after few books it is getting rather lame, and i do hope that the new books will be much better. so if u want to read a fielding book, don't start with that one.

Kurzbeschreibung Bonnie Wheeler had a picture-perfect life: a rewarding job as a schoolteacher, a happy marriage to a successful TV director, a sprawling suburban home, and Amanda, her adorable three-year-old daughter. She heard the sordid details about her husband's ex-wife, Joan -- the drinking, the instability. Then Joan calls her with a cryptic warning -- you're in danger, you and Amanda. But when Joan is found murdered and Bonnie is the prime suspect, she knows this is no game. Suddenly her secure world comes crashing down around her. Things she once believed in are lies. People she thought she knew have shocking secrets to reveal. Desperate to know who intends to harm her daughter, Bonnie is caught in a frantic race to keep Amanda safe -- even as she feels her own grasp on reality slipping.... From the Paperback edition. From Booklist The only fly in the perfumed ointment of Bonnie Wheeler's picture-perfect life is her husband's ex-wife, Joan, and someone close to her has just swatted the fly with a .38 revolver. Because Bonnie found the body and had a peculiar relationship to the deceased, the police start their search for a murderer with her. Terrified, she tells the police that Joan called her to warn her that her life was in danger and to set up a meeting. Now Joan's death sets in motion events that lead Bonnie to question everyone and everything around her. Why couldn't her husband be found when he was supposed to be at work? Why is her estranged brother's name in Joan's address book? Why was a scrapbook detailing Bonnie's life found in Joan's bedroom? Why don't Joan's children react normally to their mother's death? As Bonnie searches for answers, mysterious accidents occur that threaten her and her daughter's lives as a sociopathic murderer moves in for the kill. Fielding provides an intricately plotted thriller, with the possible killer changing from page to page as Bonnie ties the myriad clues together to form a complex whole. A definite must for Fielding fans and a new find for fans of Mary Higgins Clark. Melanie Duncan From Library Journal The author of such best sellers as See Jane Run (LJ 3/15/91) has had a field day writing her heroines into dangerous situations and then pulling them to safety, bloodied but unbowed. In her latest, violence shatters the formerly comfortable world of a woman and her daughter. Copyright 1995 Reed Business Information, Inc.
