KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. As good as his word.Von BAZZAOnce Jeremy Clarkson gets going, there's hardly any stopping him. Whether he's on four wheels in the Gobi desert or flying Concorde to the States, there's always something that gets the brunt of his sharply metaphored tongue and some poor motor manufacturer's marketing manager gets the shudders as his favourite piece of

automotive merchandising is pulled to shreds and left lying by the side of the testing track. He's funny. he's observant and he's very acerbic in a world that is less and less inclined to give a petrolhead an even break. He burns rubber and let's rip in his own inimitable style and all in the 5-page format of a Sunday Times newspaper article. Short and bitter sweet, so you never get bored for a second as the revs move off the clock and the tail end begins to swing wildly.

Kurzbeschreibung Jeremy Clarkson puts the pedal to the floor in *Don't Stop Me Now*; a collection of his Sunday Times motoring journalism. There's more to life than cars. Jeremy Clarkson knows this. There is, after all, a whole world out there just waiting to be discovered. So, before he gets on to torque steer and active suspension, he takes time out to consider: The madness of Galapagos tortoises The similarities between Jeremy Paxman and AC/DC's bass guitarist The problems and perils of being English God's dumbest creation Then there are the cars: whether it's the poxiest little runabout or an exotic, firebreathing supercar, no one does cars like Clarkson. Unmoved by mechanics' claims and unimpressed by press junkets, he approaches anything on four wheels without fear or favour. What emerges from the ashes is rarely pretty. But always very, very funny. There is, after all, a whole world out there just waiting to be discovered. So, before he gets on to torque steer and active suspension, he'd like to take a little time to consider the bigger picture. Don't worry, we'll get to the car bit in the end, but before we do, we'll learn about: the unfortunate collapse of the British empire; why Galapagos tortoises are all mental; France, reduced to the size of a small coconut; why Jeremy Paxman and the bass guitarist of AC/DC aren't so very different; the problems of being English; and God's most stupid creation. Then there are the cars: Whether it's the poxiest little runabout or an exotic, firebreathing supercar, no one else writes about cars like Jeremy. Unmoved by official claims and uninterested in press junkets, anything on four wheels is approached without fear or favour. What emerges from the ashes is not always pretty. But it is, invariably, very, very funny.
