Von Anne McCaffrey : Dragonsdawn (The Dragon Books) before purchasing it in order to gage whether or not it

would be worth my time, and all praised Dragonsdawn (The Dragon Books):

KurzbeschreibungIn the beginning, before Thread, before the Dragons, before the Holds and the Weyrs and the elite Dragonriders of Pern, was just the great ships gliding through space with nearly six thousand colonists prepared to tackle the mighty task of beginning a new world on a strange planet. It was a jewel of a planet, with rivers and seas and mountains, and breathable air and growing things. Then came the terror. The strange, unidentifiable circles in the grass suddenly revealed a meaning, and every living thing was at risk. Many died -- a horrible and consuming death. All resources, every man, woman and child had to fight the terrible nightmare of Thread. But a new creature was about to save the planet. From the delicate fire lizards a new life was born -- a new symbiosis between man and beast.

From Library JournalHave you ever wondered how life on Pern started and where the dragons came from? McCaffrey presents the birth of civilization on Pern in *Dragonsdawn*, the "prequel" to her earlier novels about this strange planet (e.g., *Moreta: Dragonlady of Pern*, Audio s, LJ 9/15/93). Listen to the adventures of the first colonists on this beautiful planet and learn where all the names, customs, and legends come from. Reader Dick Hill provides excellent characterizations for each role and conveys much emotion. Even listeners unfamiliar with McCaffrey's other installments in the Dragon series will delight in this audiobook. Suitable for broad fiction collections.- Miriam Kahn, Columbus, Ohio
