Von Ein Kunde30-something Catherine goes to Cambridge as writer-in-residence and to work on her new novel. She becomes friends with young student Maggie who introduces Catherine to a whole new world of sexual adventures... This book has got a great storyline and is very well written. I would definitely recommend it to anyone...

KurzbeschreibungYoung academic Catherine de la Tour is not content. Her lover James is a thousand miles away and she needs to get a grip on her work, her man and her life. When she accepts a post as artist-in residence at Cambridge she thinks it'll be just the break she needs. But once there she soon gets involved in the world sex lives of both her male and female students.
