**Von Diana Gabaldon : Drums Of Autumn: (Outlander 4)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Drums Of Autumn: (Outlander 4):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. One very special historical Book!Von moztartfreakIt was only recently, that the first book of Diana Gabaldon fell into my Hands. I love them. My thanks to Diana7 von 7 Kunden fanden die folgende Rezension hilfreich. Drums of AutumnVon EllenI was originally prepared to be partially disappointed with this book as a few of the other reviews

had left me with the mistaken impression that it didn't deliver. Much to my delight, I LOVED Drums of Autumn! It delivered all of the goods and more. I was also thoroughly taken with the preceding 3 books in the series. With Drums, I found enjoyment in Jamie and Claire being comfortably together, secure in their love for one another and settled in their new home. This book, like the other three, was filled with laughter, tears, romance and adversity. It dealt with each character's emotions perhaps even better than in the preceding novels because it took its time - I for one enjoyed the slower pace (but never, never a boring one). I liked the addition of Brianna and Roger's story as well as John Grey's continued presence in the lives of our hero and heroine. I can't wait to see what happens next - the introduction of Stephen Bonnett as well as Will's reappearance should make for some interesting story plots in the next 2 books! I have never been so taken with any characters as I have with Jamie and Claire. Diana Gabaldon is a phenomenal writer - she speaks directly to my heart and sense of adventure! I recommend this as well as every book in the Outlander series - 5 stars for all. 3 von 3 Kunden fanden die folgende Rezension hilfreich. Just as riveting as the first three! Von Tracie After approx. 3600 pages of Gabaldon's books I am still yearning for more. Drums of Autumn is yet another fantastic addition to this series. This book is just as pleasing as the previous three, rich with imagery, historically interesting, along with the comfortable presence of Claire and Jamie that I have grown quite fond of throughout this series. Gabaldon continues to keep the story interesting by introducing new characters and saying good-bye to some, creating new drama, but also bringing back and reminding us of some characters from the previous books. This leaves you wanting more, knowing there is more to be told about all of these characters and how their lives will weave into the web of Jamie and Claire's. The pace is a bit slower in this book (but by no means boring), this helped me slow down a bit, enjoy the language(s), revel in the imagery and prepare myself for the break I am now forced to take waiting for the next installment of Jamie and Claire, Brianna and Roger. I am left feeling "what will I read now?" I highly recommend all of the books in this series to everyone. Gabaldon is a wonderful writer!

**Kurzbeschreibung** THE FOURTH NOVEL IN THE BESTSELLING OUTLANDER SERIES. How far will a woman travel to find a father, a lover a destiny? Across seas, across time across the grave itself. It began in Scotland, at an ancient stone circle. Claire Randall was swept through time into the arms of James Fraser whose love for her became legend - a tale of tragic passion that ended with her return to the present to bear his child. Two decades later, Claire travelled back again to reunite with Jamie, this time in frontier America. But Claire had left someone behind in her own time - their daughter Brianna. Now Brianna has made a disturbing discovery that sends her to the stone circle and a terrifying leap into the unknown. In search of her mother and the father she has never met, she risks her own future to try to change history - and to save their lives. But as Brianna plunges into an uncharted wilderness, a heartbreaking encounter may strand her forever in the past - or root her in the place she should be, where her heart and soul belong....deSet in pre-Revolutionary War America, readers finally have the much awaited fourth book in what will probably become a six book series (The Outlander series). The talented Diana Gabaldon continues Claire and Jamie's romantic love affair, and introduces Brianna and Roger's story. Eight hundred pages, and several wonderful new characters later, we wonder why we were waiting for a conclusion. It'll be a long wait for book five, so I recommend you go back and reread Outlander, Dragonfly in Amber, and Voyager to keep yourself sane..comSet in pre-Revolutionary War America, readers finally have the much awaited fourth book in what will probably become a six book series (The Outlander series).
