costume, or doesn't she?

KurzbeschreibungIt's not easy being a big girl in 2169On her way to a friends Halloween party, Morgan Macy never expected to be confused for a real Fantasy Unit for one simple reason -- she has never seen a plus-size pleasure droid. Hell, there are very few big girls, period, and it has been a long, long time since a man looked twice at her overgenerous curves. Apparently there are plus-size Fantasy Units and what was meant as a practical joke poking fun at her secret crush Vance Gemini turns into a gauntlet of groping males. Forced to head home for a costume change before she even gets to the party, Morgan finds herself on an empty subway platform with a masculine, all-too-familiar voice ordering her to halt.Turn around, FU 269. I want your time. \*\*\*\*\*This SHORT story is 9100 words - enjoy!
