Excellent!Von eva__This book was very fun (and also kind of scary). Waking up 25 years in the future is a thought that is both attractive and scary at the same time. It's interesting to see how quickly she adapts to the new life and

forms relationships with the children she did not see grow up but who are hers. Recommend!

Kurzbeschreibung Aspiring supermodel, Kelli Crawford seems destined to marry her hotshot boyfriend, but on her twenty-fifth birthday she wakes in the future as a fifty-year-old suburban housewife married to the now middle-aged high school nerd. Trapped in the opposite life of the one she wanted, Kelli is forced to re-evaluate her life and discover what is really important to her. Will she overcome the hilarious and heartbreaking challenges presented to her and get back to the body of her younger self? Or will she be stuck in the nightmare of hot flushes, demanding children, raunchy advances from her husband and hideous support underwear forever? Praise for FAST FORWARD: 'Fast Forward is a unique and fun read! At times I laughed so hard that it brought tears to my eyes!' Harlequin Junkie 'Fast Forward is everything I want in a chick lit novel. It's funny, clever, has interesting characters, great dialogue and even a love story.' Chick Lit Central 'This was an entertaining and emotional debut by Juliet Madison which will have me keeping an eye out for her future releases' Beauty and Lace

den Autor und weitere Mitwirkende Juliet Madison is a naturopath-turned-author with a background in dance, art, internet marketing and perfume sales (yes, she was one of those annoying people in department stores who spray you with perfume). Nowadays she prefers to indulge her propensity for multiple careers by living vicariously through her characters. She likes to put these characters into extraordinary situations and take them on a challenging journey to discover their true passion and inner strength, weaving in some laughs, tears, romance and sometimes a touch of magic along the way. Living near the beach on the beautiful south coast of New South Wales, Australia, Juliet spends her days homeschooling her son and running her internet business and her nights writing fiction while doing her best to avoid housework.
