Von hamony56other than J R Ward`s Black Dagger and Ilona Andrews`Kat Daniels series, I haven`t read a m\fr
romance in ages. And I actually started this series with book three,Fated for forever,wich is m\m, but right from the

start felt something was missing, Rebecca worked her charm on me and I had to know her story, and man did she do a number on me! A human female lost with only a few drops of gas in her Smartcar accidentally? notices a path into the woods?, and follows it straight into her destiny. To make it short, because I could write a book about this, Becca meets her fated mate, a bear shifter in a Paranormals Only community, meets people to love and laugh and cry with, soon I forgot this was just a story, I became enthralled with the people of Arcadia. Almost all of them are loveable yet somehow flawed, there is not a single boring moment in this book, or the following, the pro- and epilogue keeps you on edge and I just have to read each and every book in this series. Try it, You will love it, that`s a promise. Thank you, Alanea for creating such a wonderful world and for sharing it.
