Von Donna Rose : Fated, Book 1 (Written in the Stars Saga) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Fated, Book 1 (Written in the Stars Saga) (English Edition):

KurzbeschreibungIn 14th century Europe, the book opens to the first chapter where Isla has the feeling she is not alone. There appears to be a spirit linked to her that may just be the salvation from an abusive husband. Her sister and nanny fear she may be losing her grasp on reality. Isla wonders herself as she tries to communicate with the spirit, but gets no response as she feared. After another encounter with her husband has left her shaken and longing for escape,

she falls into bed where she is tearlessly crying herself to sleep wishing for all this to end. When suddenly she feels arms enfolding her in comfort. Her world is about to change in ways she never imagined as she learns the spirit is not a spirit at all, but a live tangible being from another place! Follow Isla's adventure as she is kidnapped away from the life she has desperately longed to escape. A new world awaits. Where she has been whisked away to she doesn't know, but she does know she wished for a better life... and it just might be coming true! Nate on the other hand, had no cake walk of a life either. He's typically a male of little words and even less emotion. He's been mentally crippled for the last thousand years since his ex, a succubus, tricked him with spells and lust to the point his legion was nearly annihilated and his kingship and life put on the line. After that disaster, and his subsequent punishment at the hands of the council, the last thing he wanted or needed was a woman waltzing into his life just when he thought he was doing so good without one. Will they be able to overcome emotional scars and morals to love each other? Will the similarities in their species outweigh the differences and allow fate to lead them all together or will the evil council destroy what is Fated? WARNING: It's an intriguing book that is hard to put down! It's event upon puzzle that just keeps you guessing what's going to happen next. Come friend me at ~ Written in the Stars Saga OR Donna Rose on Facebook to find out the latest gossip on your soon to be favorite novels! I truly hope you enjoy don't forget to pick up book 2 of the series Providence Part 1 out now!
