A interesting book.Von Sandra TaylorI recieved this book for free in exchange for an honest review. Thank you!Kira lives with her dad and grandmother in a small town. Kira's mother killed her sister and took her own life. With the

help of her bestfriend Sean, she copes with harassment from other teenagers at school and everyday life. I like this book. It was fast paced and kept the mystery going. The writing was good and the characters well developed. I really felt the love and mourning inside Kira's family, and how helpful Sean was in comforting her. I could also understand the reason why Caleb is interested in Kira. Kira wasn't very whiney, in fact I found her very strong. At the end I didn't like her though and found her extremely cold blooded. A little empathy wouldn't hurt (sure you got what you wanted and you should be happy, but at what price?), maybe feel a little sad. A teeny weeny bit, after all it was your fault. Sean was sweet and supportive, a nice guy. Caleb a little mysterious, but nice and helpful. I really don't know who to boot for. Never read a book with two possible love interests, without one being douchebag. Riley is a selfish hateful brat. Riley's hate towards Kira was the most childish, selfish thing I have read in a book. I also liked the chapters switching from Kira to Caleb, because you see Kira through the eyes of Caleb, to understand what is going on with Kira. I enjoyed reading this book and can't wait for the next. There was so many unanswered questions, I hope these will be answered as the series go in.

Kurzbeschreibung Turning sixteen can be rough, especially if everyone in town thinks your mother killed herself and your sister. All Kira Callahan wants to do is swim, hang out with her best friend, Sean, and ignore the kids who torment her at school. That is, until the day she gets invited to a party. For three minutes her life is wonderful she even kisses Sean. Then somebody spikes her drink and some girls from out of town lure her into the ocean and hold her underwater. Kira soon discovers that the group of wild teenagers who have come to visit Crescent Moon Bay are not as innocent as they seem. In fact, nothing is as it seems not the mysterious deaths of her sister and mother, not her heritage, not even her best friend. And everything seems to hinge on the ancient Celtic legends her mother used to tell her as a child. A new twist on Irish folklore, FATHOM is one part young adult romance, one part urban fantasy and one part gothic mystery, filled with Celtic legends of the sea. Note: This is a clean, sweet romance.
