SchoeyerThe plot is interesting, although part of it may be guessed (at least I did) already early in the book. The unexpected turns and final solution / explanations are surprising. Also it gives some

insight in the world of kaolin, which apparently is used in many more applications than porcelain. I enjoyed the book thoroughly. 0 von 0 Kunden fanden die folgende Rezension hilfreich. An interesting story Von Paul Barclay An exciting book with a typical Goddard plot. Fans will not be disappointed. I look forward to reading more of his.

Kurzbeschreibung It could be your average suicide. A man found dead in his car, engine running, parked at the end of a lonely track, a tube feeding deadly fumes from the exhaust through the window. Except for the seven-year-old boy still breathing in the boot... For Jonathan Kellaway, the past is somewhere he chooses not to go. Dead friends, lost lovers and a family dynasty hell-bent on self-destruction lie buried there. But if he is to uncover the truth, he must confront all the secrets which have consumed his life, and which may yet consume him... Pressestimmen "The classic Goddard epic of romance, double dealing and tragedy wrapped up in an old family quilt stained with blood and hidden under the stairs Irresistible." If you like plenty of twists in the tale and sensational plot lines, then you're probably already a fan of Robert Goddard. Fault Line doesn't disappoint. Settings and characters are a joy." (Daily Express) "An intriguing tale of love, loyalty and betrayal... Robert Goddard remains the master of this particular territory." (Northampton Chronicle) "A dangerous trawl through memories, mysteries and dirty dealing. A compelling read."
