is Back On Track! Von Mrs. Fitz After having been disappointed with a couple of his more recent works, Fear Nothing, has me firmly back in the Koontz fold. I enjoyed it's similarity to Watchers (which still remains with Lightning my two favs) and really liked the Chris Snow character. Anyone who has ever had a dog, can't help but like Orson. Some other reviewers have commented that the book was too wordy, a little-I have to agree, hence the 4 not 5 stars. But I managed to read it in one sitting, not easy to do with two little ones running around. Looking forward to the sequel, which apparently came out yesterday. Think I'll get that one in hardcover. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Dean is BACK, but not all the way... Von The Bas This book grips ya like a good Koontz novel from page 1, however a lot of steam is spent on sub-plots and dopey side characters. The introduction is awesome - I felt it was a new level of writing for Dean (I have read 20+ of his novels), however it seems to progress into the same kind of action that we have all read about before....overall, a much better koontz book than had been put out over the past 10 years. A Great Read, however don't expect much from the master, as there were no real surprises at the end. Bummer, but, hey, it is good Koontz read nonetheless! 1 von 1 Kunden fanden die folgende Rezension hilfreich. Ein Highlight! Von Susanne Bogner Eines der besten Bcher von Dean Koontz ist der ungemein spannende und mit sehr viel (Wort-) Witz erzhlte Roman "Fear nothing". Besonders die Beziehung zwischen Christopher Snow, von seiner Freundin Sasha liebevoll "Snowman" genannt, und seinem Hund, dem Labradormischling Orson, ist umwerfend geschildert. Orson ist ein anbetungswrdiges Exemplar seiner Rasse, einerseits hyperintelligent und beraus folgsam, andererseits ganz und gar verspielter, zu Streichen aufgelegter Hund. Koontz erzht seine Geschichte mit liebevoller Detailgenauigkeit, die einen alles plastisch vor Augen sehen lsst und den Charakteren Authentizitt verleiht. Ein Highlight sind die Dialoge zwischen Christopher und seinem stoischen Surfer-Freund Bobby, deren wunderbar trockener Wortwitz einen oftmals laut auflachen lsst. Gesetzt den uerst unwahrscheinlichen Fall, dass jemandem das Buch nicht gefllt, kann man ihm nur mit den Worten von Christopher Snow raten: "Go copulate with yourself!"

Kurzbeschreibung In Moonlight Bay, the hours after midnight can be a time of terror... In Fear Nothing, Dean Koontz weaves a spine-chilling novel, full of terror and suspense. Perfect for fans of Stephen King and Harlan Coben. 'Scary. Koontz can really spook, and his dialogue and pacing rival the best' - New York Post I have been one acquainted with the night. Christopher Snow is athletic, handsome enough, intelligent, romantic, funny. But his whole life has been affected by xeroderma pigmentosum, a rare genetic disorder that means his skin and eyes cannot be exposed to sunlight. Like all Xpers, Chris lives at night - and has never ventured beyond his hometown of Moonlight Bay, a place of picturesque beauty and haunting strangeness; he knows it as no one else can possibly know it, is intimate with its shadows and darkest hours. Despite the limitations imposed by nature, he has always been determined to lead the fullest life and, with the help of family and friends, he has on the whole succeeded. But for Chris - and all the inhabitants of Moonlight Bay - a terrible change is about to happen; a change of potentially catastrophic proportions. What readers are saying about Fear Nothing: "Thought-provoking, intelligent and absolutely hilarious in places. Brilliant!" "This book is typical Koontz, a thriller as well as a scary read that grabs you from the first page and pulls you right into the story" "Whilst reading this, I felt like I was there, in the story. Shaking with fear, crying with anxiety, grinning with relief, and gripping my seat with excitement!". de If you think you've got it tough, meet Christopher Snow, the hero of Dean Koontz's novel Fear Nothing. Not only did his parents die under mysterious circumstances, but he's also being stalked by shadowy characters who want Snow to stop trying to find out how they died--or else they'll bump off his remaining loved ones (his supersmart, beer-lapping dog Orson; his best surfing buddy Bobby; and his late-night deejay girlfriend Sasha). And as if being on the lam in his own hometown, Moonlight Bay, California, isn't bad enough, Snow has to outrun his pursuers without leaving town. He has XP--xeroderma pigmentosum--a rare genetic affliction that forces him to avoid light. Cumulative exposure to sun, fluorescent lights, and the like will give him cancer eventually, and he doesn't dare leave the place where he's skillfully "done the mambo with melanoma" for all of his 28 years. Koontz makes the night-town of Moonlight Bay come alive in this sometimes pulse-pounding, sometimes funny, but mostly rather lyrical thriller. Fans of Koontz's legendary 1986 novel Watchers will love this book's similar theme: our hero and a loveable super-dog deal with a genetic engineering laboratory run amok. Horror fans will savor the evil mutant rhesus "millennium monkeys" who hunt Snow, the few scenes of eloquent gore, and the plight of certain mutating townfolk who are, as they put it, "becoming" something very creepy. Koontz gives Snow and Bobby a lingo that does for surfer talk what Austin Powers did for the Swinging '60s, and his metaphors are almost as madcap as Tom Robbins's: "As the chains of the swinging light fixture torqued, the links twisted against one another with enough friction to cause an eerie ringing, as if lizard-eyed altar boys in blood-soaked cassocks and surplices were ringing the unmelodious bells of a satanic mass." Sometimes Koontz's style goes over the top and wipes out, surfer-style, but for the most part, Fear Nothing will have readers bellowing "Cowabunga!". com If you think you've got it tough, meet Christopher Snow, the hero of Dean Koontz's novel Fear Nothing.
