Von Stephen Moss : Fear the Sky (The Fear Saga Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Fear the Sky (The Fear Saga Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. words, so many wordsVon NiceCatThe story is interesting.The actions are interesting to read about.The problem is the amount of details. There is too much text around the real story.I had to either stop reading or skipping 10 pages and

more at once. It was just plain not interesting what was said. I wanted to know how the story progressed but the book tries to hinder me. It describes in detail discussions and situations and things. I said "things" because I have no idea why that text was there. Text and text and text and lots of words but nothing to progress the story. I think there might be people to whom this is one of the big books. The real thing. SF with detailed explanations and really many words. The books are each over 500 pages, so you get a lot of text. I don't like the writing. I hate to say this because this should be one of my favourite books, but I just plain did not like this book. I skipped more and more and faster and faster just to get to know how the story progressed. I am even thinking about 1 or 2 stars, but if you really skip the pages of 3 books to get the story behind the wall of text, the story must be better than 2 stars, right? 4 von 4 Kunden fanden die folgende Rezension hilfreich. Spannende Handlung, bertrifft Erwartungen Von Kunde Nachdem ich die erste Bewertung hier gesehen hatte, hab ich eigentlich auf den Kauf verzichten wollen. Die Bewertungen auf .com waren jedoch so gut, dass ich mir das Buch doch gekauft habe und ich muss sagen, dass ich nicht enttuscht wurde. Eine spannende Geschichte, kurzweilig zu lesen und ich werde mir die Fortsetzung auch noch kaufen. SciFi wie SciFi sein sollte. Besonders empfehlen kann ich auch das dazu gehrige Hrbuch! Wer Zweifel hat, einfach die US-Kommentare lesen, dort wird ein gutes Bild abgegeben. 3 von 3 Kunden fanden die folgende Rezension hilfreich. Durchwegs spannend! Von Stefan M. Mein erstes Buch von Stephen Moss und ich knnte nicht begeisterter sein. Der Autor spart nicht an technischen Details und macht den Eindruck viel Zeit in Recherche gesteckt zu haben. Das Ergebnis ist eine glaubwrdige Welt, mit detail- und actionreichen Szenen, die selbst ein Film nicht besser vor Augen fhren knnte. Als Fan von harter (realistischer) Sciencefiction knnte ich mit dem Kauf nicht glcklicher sein!

Kurzbeschreibung "Perfect for fans of Peter F. Hamilton, Iain M. Banks, and Orson Scott Card, Fear the Sky is a hard hitting sci-fi thriller that will have you looking at the stars in a different way." In eleven years time, a million members of an alien race will arrive at Earth. Years before they enter orbit, their approach will be announced by the flare of a thousand flames in the sky, their ships huge engines burning hard to slow them from the vast speeds needed to cross interstellar space. These foreboding lights will shine in our night sky like new stars, getting ever brighter until they outshine even the sun, casting ominous shadows and banishing the night until they suddenly blink out. Their technology is vastly superior to ours, and they know they cannot possibly lose the coming conflict. But they, like us, have found no answer to the destructive force of the atom, and they have no intention of facing the onslaught of our primitive nuclear arsenal, or the devastation it would wreak on the planet they crave. So they have flung out an advanced party in front of them, hidden within one of the countless asteroids randomly roaming the void. They do not want us, they want our planet. Their Agents are arriving. "Fear the Sky is a brutal and powerful rendering of what would really happen if a race capable of interstellar travel set its sights on taking our planet from us. Book 1 in The Fear Saga sees very human protagonists pitted against an interesting and three-dimensional alien culture. It is as enjoyable as it is frightening." Bill Hartly WBSN News "Sometimes even a superior foe is worth fighting. Fear the Sky is an explosive story filled with awesome tech: from the best of today's military machines to the worst of tomorrow's death dealers. Stephen Moss will be a talent to watch." er SyFy "Easily one of the most imaginative books I've read in recent memory. Stephen Moss' extremely well researched and creative thriller is put forth in shockingly elaborate style." Tom Quaranta "if Steven Spielberg hasn't picked up on this, someone else will before too long. Bravo Stephen Moss." Victoria van Hoorn Fear the Sky, by Stephen Moss, is surging up the Hard Science Fiction rankings, and is the top selling independent debut in the category. UPDATED EDITION: We are excited to release this updated edition of the hit sci-fi epic Fear the Sky, completely edited and revised. We hope you enjoy

We hope you enjoy it. ber den Autor und weitere Mitwirkende Stephen Moss was born in England, but spent time as a child in wildly diverse places, including several years in Brazil, Belgium, and Malaysia. He eventually settled in New York, but still travels avidly, something he uses as inspiration and input to his writing. Stephen is a fan of Hard SF by masters such as Iain M. Banks, Orson Scott Card, Peter F. Hamilton and the many other fantastic writers creating masterpieces every year. His first novel, Fear the Sky, combines his passions for science fiction with a solid, realistic foundation, with his passion for travel. The novel takes place across the globe, from London, to Brussels, to DC, to the Hindu Kush mountains of Afghanistan and Pakistan, to the back streets of Tel Aviv. The few places in the book which Stephen hasn't been to in person, he researches avidly, wanting to put his characters into the reality of their surroundings, and knowing that the settings for his stories are as important as the individuals he then paints into them. While Fear the Sky is Stephen's first published work, the second book in the series, Fear the Survivors, is nearly finished, and the third and final installment is already well in hand. If you would like to know more, and know when the next installment is available, you can find Stephen on Facebook at www.facebook.com/TheFearSaga, or you can send an email to TheFearSaga@gmail.com.
