Von amygdala At first I really had high hopes for this title. Turns out I was wrong. This wasn't all that enjoyable after all. The only positive thing I can say about this book at this point is: it was free... So, here are some rambly thoughts, bear with me. I've had no compassion for one of the MCs--Starr, the empath--at all. Like, I thought /hoped I'd warm up to his character at some point, but actually ended up being totally

annoyed by him. Couldn't empathise--ha, the irony--with him at all. And certainly didn't care about what happened to him. Him being a manipulative, snappy, provocative bastard, who calls everybody "sweetheart" (whether the situation merits it or not) grated on my nerves like hell. Yes, I get that he's supposedly acting like this for self-defense mechanism reason, but just nooooope. So, the glaring cliffhanger and it being an unfinished first book in a series with no resolution of the plot aside, not gonna pick up book numero due. ETA: on a side note: "Black closed his eyes; feeling the sun upon his face as he considered the 'golden-haired' lieutenant." The 3rd person POV in this book switches from character to character, so, to me it reflects the thoughts of the respective character. Which means, when I read sth. like the example above all I can think about (while cringing) is: does anyone really talk/think like this, like ever?! I certainly don't think of my friends in terms of their hair colour--and I really doubt anybody does... So, the guy is blonde. Yep, got that. What is it with authors and (repeatedly) referring to people by their age/build/hair-/eye-colour? "the golden-haired lieutenant", the "older man", "the blonde"..... Hint: there are pronouns for a reason. And then not stopping at "the blonde" (which is bad enough already), no, because it's "golden haired", ya know, big diff.

Ich habe hnliche Geschichten gelesen, die weitaus besser ausgearbeitet waren und deren Protagonisten mehr Tiefe hatten. Speziell dem Leader der Gruppe fehlt es meiner Ansicht nach an Fhrungsqualitten, die ihn fr so eine Position prdestinieren. Es wird in der Geschichte angedeutet, dass er nicht unbedingt aus hehren Grnden - trotz seiner Jugend - diese Stelle zu bernehmen hatte. Alles in allem hatte ich den Eindruck, dass hier sehr stark versucht wurde, eine Geschichte mit vielen Verwicklungen zu konstruieren, um auf diese Art Spannung aufzubauen. Ist meiner Ansicht nach nicht gelungen. Das ist meine persnliche Meinung; andere mgen anders darber denken.
