**Von Terry Pratchett : Feet Of Clay: (Discworld Novel 19) (Discworld series) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Feet Of Clay: (Discworld Novel 19) (Discworld series) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen8 von 8 Kunden fanden die folgende Rezension hilfreich. Proof

that a long series doesn't drop in quality. Von Ein Kunde Imagine a book that is so sinister and gloomy it is disturbingly creepy to read. Imagine a book that has so many deep, hidden themes that you'll be thinking about it for weeks to come. Imagine a book that is so controversial you'll begin to question everything and everyone around you. Now think of the exact opposite and you get Feet of Clay, one of the books in Terry Pratchett's great Discworld series. This book is simply a great, fun read. It's packed full of good humor and lively characters. Reading this book is actually fun. Where and when better to base a funny book than in the city of Ankh-Morpork in the medieval/fantasy era we all know and love. The book has it all - goblins, dwarfs, dragons and lots more are all brilliantly portrayed and are so brimming with character you can nearly shake their hands (or paws or tentacles....). Most of the book revolves around the Ankh-Morpork City Watch (police). While Commander Vimes, head of the watch, is trying to unravel the mystery of who's poisoning Lord Vetinari, Corporal Nobbs, a simple officer, has found out he is the Earl of Ankh-Morpork and Cheery Littlebottom, the dwarfish alchemist, is starting to show her feminine side. All these and many more plots weave together excellently to form a gripping climax. However, it's not all fun and games. Like most books there are a few hidden meanings and themes. Most of the themes are religious issues and things like "what defines something as living" and "should man have the power of life over others". I must point out that this book isn't meant to be full of moral issues and if you're looking for a deep and meaningful book you should look elsewhere. Pratchett writes in a very 'bouncy' way, it's very lively and I find it very pleasant and refreshing. The speech in Feet of Clay is very natural and not always important to the plot. Lots of the humor in the book is in reading the characters chat (about things like dwarfish table-dancers and paying gargoyles in pigeons). One thing I noticed is that the book has no chapters. I'm not sure if this is a good thing but it does make the book hard to put down because there's no definite place to stop. This is a must read for all fantasy lovers and anyone who wants something to tickle their funny bone. I will definitely read the rest of the Discworld series now. Feet of Clay is an enthralling, fun novel that will grab you by the eyeballs and won't let go till you're finished it. 2 von 2 Kunden fanden die folgende Rezension hilfreich. A new Discworld book that lives up to the series. Von Ummagamma@sos.on.calf you're like me, and voraciously read the great British author Terry Pratchett's Discworld novels as soon as you see them on the shelves of the local bookstore, then there is a genuine cosmic force that will compell you to get this one and nothing I can say will make any difference. But lately, over the last few entries into the series, that certain colour of magic has been missing from them, which made the early works so great to read. But not to worry... Pratchett is definitely in top form with this one, which marks the always hilarious return of the Ankh-Morpork City Watch, headed by 'Sir' Samuel Vimes. Along with the already well fleshed-out main cast of Watchmen including Corp. Carrot, Angua, Nobbs, Detritus and Fred Colon, we have some new characters, all who jump off the page with Pratchett's expert handling. Even though this is a comic view of fantasy, sort of a Douglas Adams by way of Tolkien, there might be no better weaver of plot and character than Mr. Pratchett. As usual, the much put-upon metropolis of Ankh-Morpork is in grave peril, this time by a rampaging Golem, out of control and looking for blood. Things are complicated by another crisis as the slow poisoning of the Patrician has Vimes retracing the path of his childhood. So, as we've come to expect from our previous travels across the Discworld, Pratchett throws in everything but the kitchen sink, somehow managing to stray off in many directions but always keeping a complicated plot, engaging characters, vivid location and a continuing sense of wonder with this world all in the air at the same time. Trust me. Buy this book. It's worth any price. And that's cuttin' me own throat! 2 von 2 Kunden fanden die folgende Rezension hilfreich. Not Quite as Good as other watch novels Von Ein Kunde I love Discworld and I'm tired of hearing Pratchett compared to Douglas Adams. They're both British and write humor. However, Adams writes wacky inane things which are funny, whereas Pratchett writes wacky satire which is funny. Feet of Clay is not quite as good as some of what came before it; Guards! Guards! in particular is my favorite discworld novel; but I was glad to see the Watch back in this book, and it's good to see old characters again. A good book but I'd recommend other books in the series to start out with; this one has a few too many in-jokes.

Kurzbeschreibung 'Sorry?' said Carrot. If it's just a thing, how can it commit murder? A sword is a thing' - he drew his own sword; it made an almost silken sound - 'and of course you can't blame a sword if someone thrust it at you, sir.' For Commander Vimes, Head of Ankh-Morpork City Watch, life consists of troubling times, linked together by well, more troubling times. Right now, it's the latter. There's a werewolf with pre-lunar tension in the city, and a dwarf with attitude and a golem who's begun to think for itself, but that's just ordinary trouble. The real problem is more puzzling - people are being murdered, but there's no trace of anything alive having been at the crime scene. So Vimes not only has to find out whodunit, but howdunit too. He's not even sure what they do. But soon as he knows what the questions are, he's going to want some answers. de In Feet of Clay, Terry Pratchett continues the fantasy adventures on Discworld - where anything goes. Anything but murder, that is. Commander Vimes of the Watch must investigate a puzzling series of deaths, with help from various trolls and dwarfs. Pratchett's humour and excellent writing skills draw the reader effortlessly into his zany world. Feet of Clay is 19th in the series. --Blaise Selby.co.uk In Feet of Clay,
