**Von James Long : Ferney: A beautifully written time-slip novel (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ferney: A beautifully written time-slip novel (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. still searching for such a great read as FerneyVon sarah travisI read Ferney a couple of years ago, whilst living close to some of the areas mentioned in the book, close to Bristol, England. I found the book totally enthralling and as a

History teacher too, I was captivated by the descriptions by James Long of the times and the scenery. This was my first experience of reading about reincarnation and I found by the end of the book that it had raised my awareness of the topic in a haunting way. Like one of the reviewers already mentioned, I had to re-read some of the book in order to make the ending fit right. I discussed the ending with friends to whom I later lent the book - it is still doing a circuit amongst my friends after 2 years - and most of them had a different way of looking at it from myself. I was a bit disappointed with the ending in a way, but then life is full of twists and turns so nothing is as you would imagine it to be or want it to be. I intend to read the book again this summer now that I have had time for it to be less fresh in my memory. I have been searching for a read like Ferney ever since, but apart from Captain Corelli's Mandolin and Sebastian Faulk's Birdsong, I have struggled to find anything so captivating. Any recommendations gratefully received...0 von 0 Kunden fanden die folgende Rezension hilfreich. Excellent bittersweet reincarnation love story Von Ein Kunde Gally has always been a quixotic mixture of vibrant intensity and introspective fears. That weird combination fails to stop Mike from falling in love with her at first sight. Mike marries Gally, but cannot drive away the demons that haunt her. When they move to Penselwood, Gally finds some inner tranquillity. Ferney, an eighty-three year old neighbor disturbs and delights Gally. Mike feels uneasy as if the senior citizen knows some secret that even Gally does not know about herself. Ferney has lived and died many times over the centuries, but he differs from most people because his memories stretch back to the reign of Elizabeth I. He openly welcomes Gally, but not Mike. Over his lifetimes, he has proven time and time again to himself that Gally belongs to him and another man is an intruder. However, in this lifetime a cosmic joke has occurred as he is old and dying, and she has someone else. James Long's first published novel in America will leave the American readers wanting his previous works to be released here. FERNEY is a love story that transcends time, but in their current reincarnation they live separate lives. Though a bittersweet story, FERNEY leaves the reader with hope that in the darkest night, those who stay with their principles will be rewarded with the brightest light. Mr. Long has written a special, different novel that will receive fan acclaim. Harriet Klausner 0 von 0 Kunden fanden die folgende Rezension hilfreich. One of the most unique stories ever written Von Ein Kunde Although we are taught not to judge a book by its cover, I am not ashamed to admit that it was the cover of this book that caught my attention and got me to read the blurb. And as soon as I read the comparison between it and "Time and Again" by Jack Finney (one of my all-time favorites) and also that the heroine suffered from panic attacks (also something I am familiar with), I knew this was a book I had to read. And I am so glad I bought it that day as it became one of most enjoyable fiction reading experiences I've had since 1995, when I discovered "Time and Again." I could not wait to be reunited with this book at the end of my work day. I was enthralled by the past lives story line. Also by the author's ability to make the progress I take for granted today seem fresh and new and exciting as described by a working peasant/farmer who happens to have lived through 13 centuries of it. The images were very strong, for example, how different a landscape must look at night to a man who has known it lit by moonlight only for centuries to suddenly see "fire" glowing through all the windows of the houses after electricity becomes common place. The ending the book was such a killer - I actually screamed at the last paragraph. Don't look ahead whatever you do! I had to read the book all over a second time as soon as I finished it just to see the clues I missed the first time! I say buy this book immediately and enjoy a great read unlike anything you've ever read.

Produktbeschreibung One of the most brilliant timeslip novels ever written, Ferney will appeal to fans of The Time Traveller's Wife and Life After Life. When Mike and Gally Martin move to a cottage in Somerset, it's to make a new start. But the relationship comes under strain when Gally forms an increasingly close attachment to an old countryman, Ferney, who seems to know everything about her. What is it that draws them together? Reluctantly at first, then with more urgency as he feels time slipping away, Ferney compels Gally to understand their connection - and to face an inexplicable truth about their shared past. A passionate love story that spans the centuries, fall under the spell of Ferney.
