Von Dana Stabenow : Fire and Ice (Liam Campbell Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Fire and Ice (Liam Campbell Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. A wonderful new series from Alaska.Von Ein KundeI hesitated to read "Fire and Ice," because I am such a fan of Kate

Shugak's that I knew it would have to be a disappointment. Boy, was I mistaken! Kate's rough edge has been replaced by humorous eccentricity from the people Liam meets, but the same fast-paced plot and love of Alaska make this book a wonderful read in its own right. I laughed out loud in spots, and I hated to finish it--it was that good. There's no need to debate "better than" or "less than" Stanbanow's other series. This is a very good read, and I can hardly wait for the next one in this new series.1 von 1 Kunden fanden die folgende Rezension hilfreich. Has Kate Shugak read this book?Von TEBAYNES@AOL.COMShugak's first impression of Liam was why he started his first assignment as a class "A" klutz. Then She would wonder why Liam was more passionately involved his investigation then Shugak had been in each of hers. Finally, she would appreciate how Liam finally gets all the other characters like Moses and Bill the Magistrate et al to cooperate much like Kate does with her gang. Although Liam has a greater collection of characters. And then there is Why. Will Kate and Liam join forces in the future Llike Jim Chee and Joe Leaphorn.You have to read Fire and Ice to see what is coming next. Why? You'll see.0 von 0 Kunden fanden die folgende Rezension hilfreich. A new series for Stabenow-it is wonderfulVon Ein KundeLiam Cooper had it all. He loved his job as a sergeant with the Alaska State Troopers, was happily married and had a child, who he adored. However, his personal collapsed when a DUI killed his wife and son, and his career fell apart not long after that. He becomes an alcoholic in a failed attempt to stop the pain. However, Liam gets an opportunity to start anew when he is assigned to serve as the state trooper at the fishing city of Newenham. When his plane lands, Liam is greeted with his first case: the beheaded corpse of Bob DeCreft lying on the tarmac as a nearby propeller whirls. With Bob's years of experience and his impeccable safety record, Liam wonders if foul play has occurred. Making matters more difficult for Liam is seeing for the first time in years the first woman he ever loved (and lost), Wy Chouinard, a pilot and peer of the deceased. FIRE AND ICE is a remarkable regional police procedural that makes the reader believe that they are traveling over the rural areas of Alaska. The story line is crisp and action-packed as Liam literally take his first step from the plane into a murder mystery that impacts the woman he still deeply loves. The characters are well drawn and likable, but fans of the Kate Shugak series already expect that from talented Dana Stabenow. Readers will want more works starring Trooper Campbell and his superb support cast in their remote, often time feral locale.Harriet Klausner

KurzbeschreibungAlaska State Trooper Liam Campbell, demoted and reassigned to the remote bush town of Newenham, literally steps off the plane into a murder scene.Dealing with death is never simple, but when the woman leaning over the body proves to be Liam's old flame, its evident that his new job is about to become much more complicated. Of course, small town tensions tend to simmer just beneath the surface, and murder, once done, has a tendency to happen again. What were you intending to do with Mr. Engebretsen, Bill?They both regarded the bound man for a moment. The bar watched and waited in silence. Well, Bill said finally, I was thinking about supergluing his shooting hand to one cheek of his ass and his other hand around a beer bottle.Liam stared. She appeared to be absolutely serious. He opened his mouth, and she said, He drinks too much, does Teddy. Im not totally unfeelingthe bottle of beer will be a full one, but after its gone, thats it.I like it, the Old Fart said, and grinned evilly when Teddys eyes bulged over the edge of the gag.Or we could just shoot him, she said, and raised the .30-06 to work the action. She gave a satisfied nod. Plenty of ammunition. Course at this distance I really only need one.This is the first novel in the Liam Campbell series..deDana Stabenow won an Edgar Award for her books about Kate Shugak, a resourceful Indian woman living in Alaska. The series is full of respect for the landscape and the hard work it takes to survive in the far north. Now she starts a new series starring Liam Campbell, an Alaskan State Trooper with a troubled past and an uncertain future; the environmental issues of the 1980s appear to have been back-burnered in favor of the personal needs and feelings of the 1990s. You might think there are one too many colorful eccentrics or jaunty drunks in the town of Newenham, where former Sergeant Campbell has been demoted after his own bout with booze and self-doubt. But you'll definitely admire the way Stabenow jumpstarts her story: within a few minutes of his arrival from Anchorage, Campbell has to deal with one murder (a pilot almost decapitated by his propeller), one old girlfriend (the exotic and possibly dangerous Wy Chouinard), and a man held hostage in the town's only decent burger joint--held for shooting out a jukebox that was playing Jimmy Buffet's Margaritaville. Stabenow can also grab your attention with the details of everyday life in an Alaskan fishing village, such as this description of the contents of a light plane: "There was a handful of candy wrappers, two maps of Bristol Bay, five small green glass balls which Liam recognized as Japanese fishing floats, a walrus tusk broken off near the root, a survival kit, two firestarter logs, two parkas, two pairs of boots, a litre-sized plastic Pepsi bottle half full of yellow liquid, a clam gun, a bucket, three mismatched gloves and three handheld radios, which to Liam seemed a bit redundant." The Kate Shugak books include A Cold Day for Murder, Breakup, A Cold-Blooded Business, Blood Will Tell, Dead in the Water, A Fatal Thaw, Killing Grounds, and Play with Fire. --Dick Adler.comDana Stabenow won an Edgar Award for her books about Kate Shugak, a resourceful Indian woman living in Alaska.
