Von Shannon Mayer : Firestorm (The Elemental Series Book 3) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Firestorm (The Elemental Series Book 3) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Again a

great story Von MenNoWarIt's the long awaited extension to Larks' story, and for myself, now that i finished the book am hoping to get hands on the fourth chapter very soon.I love the crossing of the other characters like the great wolfe and - no, i don't want to spoiler.This part is about the pit, where the Fire Elementals reside, but imho the two preceding books had more fire in them. Thats why i only set 4 stars.Guess there is room for one or two books before Rylee has to - umm, again a spoiler i guess. Has to do sth. with a sword and a plastic box.When i get the appearance of Lark in the Rylee Series right the next book could end in the desert, and after that the episode with the vampire nest may be next?Whatever will come next, this book is worth reading if you like the Elemental Series (and even more if you like Rylee Adamson too).

Leider braucht sie Inger zum Schreiben als ich zum Lesen Von Christine Miller Der dritte Band ber Lark steht den ersten beiden Bnden in nichts nach. Lark und ihr Mit-Ender Ash werden auf Befehl der Pit-Knigin Fiametta gefangen genommen und in den Pit verschleppt, um dort verurteilt zu werden. Dort trifft Lark wieder auf Peta, die ihr von der Muttergottin als Familiar zugewiesen wird. Peta kennt man aus den spateren Bnden der Rylee Adamson Bnde und es hat mir sehr gefallen, mehr ber die Gestaltwandler-Katze zu lesen. Peta hat alle ihr bisher zugewiesenen Elemental Schtzlinge an den Tod verloren und wird im Pit als Bad Luck Cat verspottet. Die Abenteuer der beiden in den Lava-Strmen sind ausgesprochen spannend und gut geschrieben.Leider habe ich den dritten Band viel zu schnell verschlungen und wnsche mir nun, Frau Mayer wrde genauso schnell schreiben wie ich lese.

Larkspur in the Fire-pit - another dangerous and gripping adventure in the elemental's universe Von Mina Note: this is the 3rd novel of the 'Elemental' fantasy series and since all its books share a common story arc, it's not a good place to start reading. If you're new to the series, I recommend to start with 'Recurve'.

Review Oh boy, Lark's life really is a series of mistreatment, taking punishment for others and generally bearing the brunt whenever things go south... And when she and Ash are brought to the Pit, the home of the fire elementals, to be tried for killing four ends [aka warriors of the respective elemental king/queen], things go down south pretty soon: Ash incarcerated and Lark trying to get him out, all the while being attacked by hostile fire elementals and some hidden and powerful people who have their very own and ominous agenda. Yes, at times it literally hurt to read about all the s**** happening to Lark and I wonder [as she probably does, too], if it is a good thing to be sworn to the mother goddess, for her assignments for Lark are hard to stand. What I did like was how true and positive her relationship to her sister Bella have become and her developing relationship with her assigned familiar [those of you who know the 'Rylee Adamson' series know who I'm talking about]. Which brings me to my pretty minor complaint: the allegedly romantic relationships and the feelings involved. I just didn't feel it. I read about how one or the other is in love, but there is much more depth in the relationship between the sisters Lark and Bella, although they have very little common page time. But yeah, this really is my only cavil. The world again is drawn amazingly, the fire pits with the unbearable heat, the lava everywhere, I could actually feel them. And the plot is gripping as usual, probably even more so, because since I know what is happening to Lark in the future, dread starts to build as I recognize this future to emerge [again: you'll know if you've read 'Rylee Adamson']. The story of Lark being in the pit is concluded, but just like in the prior books, the next assignment is already obvious. Can't wait!

Kurzbeschreibung "I just love the worlds she builds and the kick ass heroines she writes! There is nothing worse than a weak heroin that does nothing but cry and expect a man to save her. Shannon doesn't do that. Her leading ladies are strong independent warriors yet so full of heart and soul that when that rare occasion comes that tears are shed you can't help but cry with them." -Boundless Book s From HiJinks Ink Publishing and Shannon Mayer comes FIRESTORM (Book 3) in The USA Today Bestselling ELEMENTAL SERIES. With over 1 million books sold, Shannon Mayer proves once again she can dominate her genre right out of the gate."My name is Larkspur, and I am an Elemental."My people use the power of the earth to sustain life and defy our enemies. I should be at my father's side as a royal princess. But as a half-breed, bastard child, that isn't going to happen. In a world of lava and fire, I am about to face my hardest trial yet. Not one of strength, or power, but intrigue and manipulation. However, my tolerance level for anyone outside of my family is at an all-time low, and the queen who rules the Pit expects complete obedience. As Ash's life is held in the balance, I have just three days to prove his innocence and mine. This place holds more than a scorching heat; new foes, traitors, and creatures from the depths of the lava are all trying to keep us from surviving. The only question left. . . Can I get us all out without being burned alive? Welcome to the Pit.
