rated fantasy stories by different authors Von Booklover Five Shades of Fantasy is a good opportunity to get a feeling about the writing styles of the different authors. I already liked Kristen L. Middleton und Chrissy Peebles, so I knew I would at least get to read two good stories and I was right. I also liked Kaitlyn Davis' story very much, and will definitely keep an eye on her work. I absolutely hated the fake fantasy story by CM Doporto (this is why I only gave 3/5 stars!), because I definitely don't want to read a christian novel with some minor fantasy elements (if at all). When it got too annoying I just stopped reading. A story like this should be advertised accordingly. When I read the word FANTASY I want to read fantasy and not about condemning people because they have sex before marriage or why the characters think it will be better to stay virginal, etc.! Was very disappointed about this one (Elements). I didn't read Rae of Hope because I have this book separate on my kindle but it sounds promising. Because this collection was free (don't know if it will stay this way) I can only recommend it, even if you don't agree with my rating - there is no better way to find new authors (even favourite ones) and to decide which kind of stories/Genre you like!
