FLASH POINT - a really great and funny romantic suspenseVon Bianca @BJSBBKatherine's mom was killed five years ago - and Katherine saw it all happen.Her Dad's an important judge in Atlanta, and to keep her safe, he sent her to live with her aunt in London for a while. But now she's back - at college. Getting a business degree - so not what she wants

(Art) and not what her Dad wants either (Law). When new threats against her life are being made, the judge hires a team of bodyguards to guard Katherine's body. Enter JASON GARRETT former Navy SEAL - turned bodyguard. Jason and his colleague Kirkpatrick move into an apartment with Katherine - because she can't stand to live in her Dad's house - the house where her mom was killed - and because she wants to be closer to college. And of course - being that close to an incredibly hot ex-SEAL 24/7 is turning her on A LOT!!! And Jason doesn't seem immune to her hotness either...but he tries to stay strong... Let's guess how long that will last? While we hear about the story from both Katherine's and Jason's POV, we also get to hear a few lines from the bad guy here and there. Lots of funny, suspensy moments will happen until we get to find out how the story will end for our darlings. WHAT WILL HAPPEN TO JASON KAT??? WILL THERE BE A HAPPY EVER AFTER FOR THOSE TWO? OR WILL EVERYBODY DIE??? WILL THERE BE A CLIFFHANGER??? NOPE . . . I'm not telling you ok - no Ciffy - it's a standalone romance ..

I really enjoyed the book. It was a really cute and fast-paced romantic suspense story. Katherine is still totally scared and scarred on the inside from what happened to her mom - but she tries to hide it with jokes and sexual innuendos. But Jason gets to know her pretty fast - his first impression of her was totally wrong though. Kat keeps those poor bodyguards on their toes every minute of the day - and night! I don't want to give away too much - but there will be some tiny little whoa-moments towards the end. FLASH POINT was a really great and funny romantic suspense GO AND BUY IT - I bet you'll want Jason to guard your body too!!!! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Really, this is one badass, mindfucking, emotional rollercoaster of a first solo book! Von Cassandra The blurb already tells you everything you need to know and I don't wanna spoil it with everything more about it. Right from the beginning there's no room to breathe while reading this story. It is told from Kat's and Jason's POV. As that wouldn't be interesting enough, we get little snippets from the danger's POV. It's those little snippets that give you the creeps. It's fast paced and with a lot of suspense that keeps you at the edge of your seat. I absolutely had no idea til nearly the end of what was going on!!! And that alone is 5 star worthy! Katherine is a scared young woman that hides those feelings behind sarcasm and a feistiness that make you laugh out loud a lot of times! Mostly those are the parts she has confrontations with Jason. He seems without any emotion, purely focused on his job. But he's a very perceptive man that sees straight through her act and isn't afraid to call her on that. Sooner or later they both can't deny they are attracted to each other, no matter how much they try to deny it...well, one person tries and the other tries to provoke ;) What happened to Kat's mum...Blair wasn't going the easy way with that. Thumbs up from me. It's hard to read, but well written and at the right time to understand a lot more of the past stuff. Bananas, sausages, Notting Hill and Kitty Kat will never be the same. And if someone talks to me about staying up? Well...we add that also to the naughty list! I can only highly recommend this to everyone! You really have to read this to fully understand the awesomeness, especially since this is a debut novel! And I'm already excited to read more from Brooke Blaine, because it really takes talent to cause all those emotions from a reader!

Kurzbeschreibung He swore to protect her body, but he never promised to protect her heart." Katherine Shaw. Rich girl? Check. Spoiled and obstinate? Check. A sexy fireball who pushes every button ex-SEAL Jason Garrett has? That was not listed on the dossier he receives when he's assigned as one of her bodyguards. The last thing he ever expected was that his tempting client would prove to be more sinful and dangerous than those he's protecting her from. It's been five years since a family tragedy tilted her world off its axis, and Katherine Shaw still relives the nightmares of that night. She escaped. The danger should've been over. She couldn't have been more wrong. When her father, a prominent Justice, receives a chilling death threat, her past comes hurtling into her present, along with Jason, the unshakeable protector her body can't seem to ignore. Their attraction would be forbidden even under the best circumstances. But as the threat draws near, the tension between the two of them rises, culminating in an explosive flash point that will blindside them both. Flash Point is a standalone romantic suspense novel.
