Flawless Von Lau Sehr schne Geschichte, auch wenn teilweise die Vertragsverhandlungen extrem ausführlich und BWL-lastig beschrieben werden. Verena und Lance finden nach einigen Höhen und Tiefen doch zueinander und alles endet zufriedenstellend. Das Ende kam allerdings etwas arg plötzlich und zwischendrin waren auch einige in die Länge gezogene Szenen, die minimal langweilig waren. Dennoch eine schne Geschichte über die Kosmetikindustrie und auch ein bisschen über Kochen!

A The Love, California series is women's contemporary fiction with strong female leads, womens friendships, and romantic relationships. The women are stylish, creative, and smart, but like any of us, they make mistakes and have to find their way. Some call the Love, California series the perfect chicklit beach books, while romance readers get romance and a lot more. Q You also write 20th century historical novels for St. Martins Press and other foreign publishers. What are the differences and similarities between your contemporary series and historical novels, and why do you write in these two genres? A The Winemakers and Scent of Triumph are set in the 1950s/1920s and WWII and revolve around women who discover their inner core strength, as in the modern Love, California series. Another shared element is the appreciation of creative arts and business, from winemaking and perfumery to fashion, art, jewelry-making, and beauty. Both genres have multigenerational casts and international settings, too. My contemporary characters have more opportunities to pursue dreams with fewer restraints, but societal challenges still exist. Initially, I began this series as light-hearted emotional relief from my intense World War II saga, Scent of Triumph, which follows a female French perfumer. Focused on friend and family relationships, the Love, California series is more akin to Sex and the City (less sex, more smarts), while my historicals are longer, layered sagas. My German publisher Goldmann/Random House compares The Winemakers to Barbara Taylor Bradfords books, which I adore. (We also share a May birthdate.) Its a 2017 lead title in Germany, and Im adapting it with a screenwriter, so if readers like historical fiction (or wine), read The Winemakers. And all audiobooks are read by the amazing, award-winning Erin Bennett. Jan Moran writes for St. Martins Press and has appeared on CNN, in Elle, WWD, Allure, Costco Connection, and O Magazine. Pressestimmen "A novel that gives fans of romantic sagas a compelling voice to follow." - Booklist "Readers will devour this page-turner as the mystery and passions spin out." - The Library Journal "Flawless smacks of authenticity. A first rate job of introducing a wonderful new series about life in the beauty industry. The ending took me by surprise on several levels. - Shade Tree Books "A full-on drama. Every setting, every situation is described with so much detail and care that the story comes to life in the reader's eyes. The narration has a smooth flow." - b00kr3vi3ws "A Flawless execution of a romance book...captivated from the beginning until the end."
