Von Larry Niven, Edward M. Lerner : Fleet of Worlds: 200 Years Before the Discovery of the Ringworld (Fleet of Worlds series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Fleet of Worlds: 200 Years Before the Discovery of the Ringworld (Fleet of Worlds series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Das Zeug zum KlassikerVon Cliente de Das Buch war richtig toll. Kurzweilig. Spannend. Mit unerwarteten Wendungen, voller phantastischer Einfaele. So sollte science fiction sein.Das Buch kann ich dringend weiterempfehlen - und kann auch gelesen ohne sich vorher durch die Ringworld Romane gearbeitet zu haben.

KurzbeschreibungFleet of Worlds marks Larry Niven's first full novel-length collaboration within his Known Space universe, the playground he created for his bestselling Ringworld series. Teaming up with fellow SF writer Edward M. Lerner, Fleet of Worlds takes a closer look at the Human-Puppeteer (Citizens) relations and the events leading up to Niven's first Ringworld novel.Kirsten Quinn-Kovacs is among the best and brightest of her people. She gratefully serves the gentle race that rescued her ancestors from a dying starship, gave them a world, and nurtures them still. If only the Citizens knew where Kirsten's people came from.A chain reaction of supernovae at the galaxy's core has unleashed a wave of lethal radiation that will sterilize the galaxy. The Citizens flee, taking their planets, the Fleet of Worlds, with them.Someone must scout ahead, and Kirsten and her crew eagerly volunteer. Under the guiding eye of Nessus, their Citizen mentor, they explore for any possible dangers in the Fleet's pathand uncover long-hidden truths that will shake the foundations of worlds. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.From BooklistNiven's latest foray into Known Space, his favorite imaginary universe, revisits the domain of the puppeteers, the perpetually nervous, two-headed extraterrestrials featured in his Ringworld series. In this collaboration with the author of Moonstruck (2005), Niven steps back a few centuries before Ringworld's discovery to witness the puppeteers' flight from a lethal explosion at the galactic core. To safeguard his species' fleet of migrating worlds from hostile forces, a veteran puppeteer starship pilot enlists an unlikely trio of human scientists for scouting missions ahead of the fleet's path. Raised from embryos apparently discovered on a derelict starship, the humans have known only servitude and a limited culture carefully tailored by their alien hosts. Yet a chance discovery on one of their space treks slices through a web of puppeteer lies and provokes rebellion when the humans learn their true home may be waiting for them on Earth. Lerner may be responsible for the exceptional freshness and suspense of this further chapter of Known Space lore, full of startling revelations about human and puppeteer politics. Hays, CarlPressestimmen" Great story telling is still alive in science fiction because of Larry Niven, and his finest work is the Ringworld series." ---Orson Scott Card "For three and a half decades, nobody's done it better than Larry Niven."--Steven Barnes "Niven is an undisputed master in the field.. "---David Gerrold" Great story telling is still alive in science fiction because of Larry Niven, and his finest work is the Ringworld series. " ---Orson Scott Card nbsp; "For three and a half decades, nobody's done it better than Larry Niven." --Steven Barnes "Niven is an undisputed master in the field.. "---David Gerrold"Great story telling is still alive in science fiction because of Larry Niven, and his finest work is the Ringworld series."---Orson Scott Card "For three and a half decades, nobody's done it better than Larry Niven."--Steven Barnes "Niven is an undisputed master in the field.. "---David GerroldPRAISE FOR "FLEET OF WORLDS" "A lively prequel to Niven's 1970 classic, "Ringworld," . . . Fans of hard SF will be well rewarded."--"Publishers Weekly" "Exceptional freshness and suspense . . . full of startling revelations about human and puppeteer politics."--"Booklist" "A far-future SF mystery/adventure set two centuries before the discovery of the Ringworld by humans. . . . Intriguing human and alien characters and lucid scientific detail."--"Library Journal" "A new Known Space book, particularly one with new information about Puppeteers and their doings behind the scenes of human history, needs recommending within the science fiction community about as much as a new Harry Potter novel does - well, anywhere. But Niven and Lerner have produced a novel that can stand on its own as well as part of the Known Space franchise."--"Locus" "If you're a Niven fan, just go buy the book. It's that good!...It's the finest Known Space work in many, many years that I've had the pleasure to read. This is an essential read for anyone interested in how good science fiction can be."--"Green Man " "A very worthy addition to the ongoing Known Space future history."--SciFi.com "As we have long expected from Niven, it's a great read, and Lerner--as "Analog" readers know--has the knack as well. You'll enjoy this one."--"Analog Science Fiction and Fact" "Larry Niven and Edward M. Lerner have teamed up to write the prequel [to "Ringworld"], and it's well worth reading whether you've read "Ringworld" and its subsequent books or not."--SFRevu.com "If a little knowledge is a dangerous thing, a lot of knowledge can rock worlds."--"KansasCity"" Star" PRAISE FOR "FLEET OF WORLDS""A lively prequel to Niven's 1970 classic, "Ringworld," . . .
