**Von Patricia Cornwell : Flesh and Blood (The Scarpetta Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Flesh and Blood (The Scarpetta Series):

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. Only for the greastest fans of Dr Scarpetta, because the ...Von Miki101.Micha ...voyage in and out if the past continues in this book - once more. But this time it takes on dimensions, I personally thought to be impossible. Again and again Ms Cornwell dives into the squallid past of one of Scarpetta's nearest and dearest - this time it is Lucy - to nurture

suspicions. Which are so far-fetched that I had to laugh when finally the "solution out of the past" presented itself. It's Kay's birthday and she and her adorable, beautiful, intelligent etc etc husband Benton want to depart for Florida. To meet the happy bunch of madwomen Scarpetta calls family. But a case so absurd that it is almost impossible to believe, comes her way in form of Marino - and ciao ciao holidays. Slowly, but very very slowly suspects are building up against Lucy, known to be sometimes on the other side of the law. But it is one more time only the past that catches up with Dr Death aka Scarpetta. Who has to fight and defend personally where others logically are failing. Because SHE is the best, the toughest, the most dedicated. Always ready to serve and protect - but this time her own family...As I wrote above, this is another voyage into the past. As if the USA don't have in the present too their full load of madmen and -women. No - what has gone very well with other authors like Kathy Reichs, has to fit for Ms Cornwell, too. Only that it is an almost complete failure, and the solution is ab-so-lu-te-ly absurd. And the end is annoying and confusing and You tell me! I was glad when it was over. A waste of time - except maybe for the very dedicated fans of that - now oh so sad - heroine Kay Scarpetta has once been. Who once kept her readers tight and put 'til the last page had ben turned. And feverishly waiting for the next book of the series. But that's history...ancient history. Sadly...1 von 1 Kunden fanden die folgende Rezension hilfreich. nein danke Von BBrueggi Dieses Buch aus der Reihe um Kay Scarpetta war langweilig, blutleer und de. Es konnte mich von Anfang an nicht fesseln, und zu Ende gelesen habe ich es auch nicht. Der Ton von Kay Scarpetta, ihre Sicht von sich selbst als permanent Bedrohte und Gejagte von Mrdern und Schurken war unertrglich tiefig und ermdend. Das konnte Ms. Cornwell mal besser. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Not bad, but ... Von Customer... not quite as good as her older books. Scarpetta really is pushing herself to the limits, I feel like it's getting harder on her in every book.

Kurzbeschreibung No.1 bestselling author Patricia Cornwell delivers the next enthralling thriller in her high-stakes series starring Kay Scarpetta a complex tale involving a serial sniper who strikes chillingly close to the forensic sleuth herself. It's Dr. Kay Scarpetta's birthday and she's about to head to Miami for a vacation with her FBI profiler husband Benton Wesley when she notices seven pennies on a wall behind their Cambridge house. Is this a kids game? If so, why are all of the coins dated 1981 and so shiny its as if they're newly minted? Her cellphone rings, and Detective Pete Marino tells her there's been a homicide five minutes away. A high school music teacher has been shot with shocking precision as he unloaded groceries from his car. No one heard or saw a thing. Its as if God did it. In this 22nd Scarpetta novel, the master forensic sleuth finds herself in the middle of a nightmarish pursuit of a serial sniper who seems to leave no evidence except fragments of copper. The shots are so perfect, they cause instant death and seem impossible, and the death scenes aren't crime scenes because the killer was never within hundreds of yards of the targets. The victims seem to have nothing in common, and there is no pattern that might indicate where the Copperhead will strike next. First New Jersey, then Massachusetts, and then into the murky depths off the coast of South Florida, where Scarpetta dives a shipwreck, looking for answers that only she can discover and analyze. There she must face an unthinkable truth that points in the direction of her techno genius niece, Lucy, Scarpetta's own flesh and blood. Pressestimmen This is in many ways the best of the recent Scarpetta novels, boasting an involving story and some fine writing. Kay has finally found her voice as a first-person narrator. . . . Readers will give this one an enthusiastic thumbs up. (Booklist) Everyone knows Scarpetta; she has the wit, intelligence, and strength that any forensic sleuth should own. This never-stop action plot is yet another gift to readers from Patricia Cornwell--a literary artist that is never going to stop writing some of the best and most memorable thrillers out there. (Suspense Magazine) Bestseller Cornwell's thrilling 22nd novel featuring Dr. Kay Scarpetta . . . pits the chief medical examiner against a threat uncomfortably close to home. . . . Series fans may be pleasantly shocked by the return of a once-vanquished nemesis. (Publishers Weekly) Kurzbeschreibung No.1 bestselling author Patricia Cornwell delivers the next enthralling thriller in her high-stakes series starring Kay Scarpetta a complex tale involving a serial sniper who strikes chillingly close to the forensic sleuth herself.
