tolle Fortsetzung! Von Barbara Schinko "Flight from Honour" ist die Fortsetzung zu Gavin Lyalls "Spy's Honour." Captain Matthew Ranklin ist ein britischer Offizier und widerwilliger Spion, der sich zusammen mit seinem irischen Kollegen O'Gilroy und einer gewieften amerikanischen Millionärstochter den Auftrag einhandelt, den Besuch eines italienischen Senators zu bewachen. Dieser scheint sehr daran interessiert, Waffen und vor allem Flugzeuge für die italienische Armee zu kaufen - oder vielleicht gar für eine private Verschwörung? Obwohl "Flight from Honour" eine Fortsetzung ist, lässt sich das Buch durchaus ohne Vorkenntnisse lesen. Gavin Lyall schreibt wunderbar witzige und spannende Romane, deren "Helden" sich selten als besonders heldenhaft betrachten. Alle Charaktere sind sehr interessant, wenn auch nicht notwendigerweise plausibel gezeichnet. Man hat vor allem den Eindruck, dass Gavin Lyall die Geschichte selbst nicht so besonders ernst nimmt, sondern vor allem gut unterhalten will. Dass der Autor selbst in der Royal Air Force war und seine Flugzeuge liebt, merkt man hier - im Gegensatz zum Vorgängerband - deutlich: Ein Großteil der Handlung spielt auf Flugplätzen oder in der Luft, doch obwohl hier die technische Seite nicht zu kurz kommt, wird es für den Laien nie langweilig. Alles in allem: Ein rundum empfehlenswertes Buch! 10 von 10 Kunden fanden die folgende Rezension hilfreich. Lovingly written, a delight to read. Von Alfred J. Kwak. Delightful spy thriller situated in the summer and balmy autumn of 1913 (as Treverians The Summer of Katya) when, with mainland Europe boiling with conspiracies, Britain's Bureau of Secret Intelligence, the infant version of MI 6 (est. 1910) is finally, and incrementally, expanded. The Army and Navy long had their own intelligence branches, whilst the Foreign Office disdained espionage as a profession or career track. Therefore, the new Secret Intelligence Bureau - all stakeholders agreed - must be kept small and manageable, commanded by a mere colonel. Britain's new counter-espionage bureau was also headed by someone easy to overrule from above... Early on, a commentator remarks that such services are useless unless controlled independently by the PM's Office or the Cabinet's Office. BSI's new staff intake is tiny: Major Dangler served in the Indian Army as a spy. He is by far the most experienced in the craft. Capt. Matthew Ranklin (MR) narrowly escaped bankruptcy and readers will see through his eyes what happens next. He is analytical and a good planner. Irishman Conall O'Gilroy spent years in South Africa, then ran afoul of Fenians back home. He is a proud man, an evasion surveillance expert and a fierce fighter. And keenly interested in technology, esp. flying. This trio is also tasked with training four fresh volunteers from the armed services. This thriller gathers real pace thanks to an Italian Senator, two foreign assassins and two sexy female characters, one English, the other an American future heiress and MR's unlikely lover. Each and every character has secrets of their own. Professionally or personally, their minds are primed to uncover secrets of other persons and their governments. Asked why espionage is called the Great Game, one character said Englishmen would not take spying seriously otherwise. Well researched re European pre-WW I history and regimental and class issues over centuries esp. pertaining to reasons to start wars. GL highlights GB's 1913 industrial and fashion prowess via e.g. Burberry and BSA (Birmingham Small Arms). Also illuminating about the use of airplanes this early (GL often featured planes and their pilots in his books). This thriller taught me where the word sabotage comes from and rushed me to the next page and chapter. Great read for fans of the history of flying, pre WW-I history and lots of intrigue. Highly recommended thriller, more authentic and better written than most..

**Kurzbeschreibung** The Italian senator thinks the fledgling British Secret Service can offer him protection from assassins, an aeroplane and the means of fuelling a strike in a Trieste shipyard. Those recruited could accidentally change history in this adventure set in the early days of modern espionage. **Kurzbeschreibung** The Italian senator thinks the fledgling British Secret Service can offer him protection from assassins, an aeroplane and the means of fuelling a strike in a Trieste shipyard.
