Von Michelle Dare : Floating (Ray Point Book 1) (English Edition) before purchasing it in order to gage whether

or not it would be worth my time, and all praised Floating (Ray Point Book 1) (English Edition):

KurzbeschreibungFear wasnt a fleeting emotion for Lucy Abrams. It was something she felt every day of her life. The night she almost drowned was seared into her memory, marking the beginning of her problem with anxiety. Her oceanfront home and the crashing of waves against the shoreline served as an ever-present reminder of her past. Until the day she saw someone on the beach whose very presence calmed her.Ellis Sullivan was a recent law school graduate, spending the summer with his best friends at his familys beach house in Ray Point. It was their last chance to have fun together before they entered the workforce. Summer was supposed to be full of days on the sand and parties at night, but that changed the day he first saw Lucy. She walked into his life and rendered him speechless. He knew hed never be the same.A relationship between the two was unexpected, but their connection was strong. Not everyone thought they should be together, though. Lucys ex-boyfriend, Gabe, wasnt ready to give up on a future with her. After all, he was the one who saved her life.Love and trust came together to help Lucy find the peace within that she had searched for since that terrible night. Only with the right person by her side was she able to move on, beyond the fear that had ruled her life for far too long. The person who made her feel like she was floating.*This book contains explicit language and sexual content. It is meant for readers 18 and over.KurzbeschreibungFear wasnt a fleeting emotion for Lucy Abrams. It was something she felt every day of her life. There arent enough hours in the day for her to write all of the story ideas in her head. When not writing or reading, shes a wife and mom living in eastern Pennsylvania. One day she hopes to be writing from a beach where she will never have to see snow or be cold again.
