**Von Angie Sage : Flyte: Septimus Heap Book 2** before purchasing it in order to gage whether or not it would be worth my time, and all praised Flyte: Septimus Heap Book 2:

KundenrezensionenHilfreichste Kundenrezensionen3 von 3 Kunden fanden die folgende Rezension hilfreich.  
hervorragende FortsetzungVon ericBei Fortsetzungen bin ich immer sehr gespannt, ob die Qualitt des ersten Bandes beibehalten wird:Es ist gelungen!In "Flyte"versucht Simon,Septimus Bruder,DomDaniel zu helfen, wieder an die Macht zu kommen.Er entfhrt Jenna und bringt sie in die "gruseligen" Badlands.....ein spitzenmiges

Fantasybuch, spannend und mit viel Humor. Sehr empfehlenswert! 1 von 1 Kunden fanden die folgende Rezension hilfreich. macht Lust auf mehr Von chsba Wie der Vorgänger, "Magyk", eine Fantasyroman, der einen auch als erwachsener Leser schnell in seinen Bann zieht. Die Geschichte beginnt dort, wo "Magyk" aufhört - es hilft, wenn man sich noch mal den Inhalt des ersten Bandes ins Gedächtnis ruft. Die Geschichte spielt in der in "Magyk" aufgebauten Welt, zeigt aber diesmal auch deutliche Querbezüge zu anderen Werken der Fantasyliteratur: Die alten Geister bewachen das Schloss, ein großer Hund heißt Fang, es gibt im großen, finsternen Wald sprechende Bäume, und Septimus hat einen Stein, der sich als Drachenei entpuppt ;) Aber, und darum gab es bei mir dann doch 5 Sterne - die Geschichte bleibt in sich logisch, spannend und lässt einen das Buch nicht mehr aus der Hand legen - und macht Lust auf den dritten Band. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Courtesy of Teens Read Too Von TeensReadToo Septimus Heap, seventh son of a seventh son, has settled into his life as the Apprentice to the ExtraOrdinary Wizard. Formerly thought to be only an orphan boy serving in the Young Army, it was quite a shock to the Heap family when they discovered that Boy 412 was actually their youngest son, who they believed had died after childbirth. Now that Marcia Overstrand has taken Septimus back to the Wizard Tower as her Apprentice, Septimus is truly learning how to use the Magyk that flows strongly through his lineage. Although DomDaniel is believed dead after the wreck of his boat, and, in fact, the end of the first book in the series saw his skeleton sinking to the bottom of the Marram Marshes, not all members of the Heap family are happy to have the prodigal son return. Simon Heap, the oldest of Silas and Sarah's sons, had always hoped to gain the apprenticeship to the ExtraOrdinary Wizard. When that goal was thwarted by the reappearance of young Septimus, Simon's anger turned to revenge. After rescuing the bones of DomDaniel, the evil Wizard, from a watery grave, Simon disappeared into the Badlands, much to the worry and horror of his family. Nearly a year has passed, and Jenna, the Princess who will one day become Queen, is enjoying the quiet, peaceful life in the Palace. She has settled into her life on the Palace grounds, once again happy and secure. Nicko Heap has taken a job at the boatyard; the four wild Heap children are still living in the Forest with Wolf Boy; Septimus is learning the ways of Magyk. All is well until one day when Simon Heap, surrounded by Darkness, rushes onto the Palace grounds upon a black horse and kidnaps Jenna, taking her away to the Badlands. Simon, who now considers himself to be the Apprentice of evil DomDaniel, knows he must get rid of the Princess, and his brother, Septimus, if he has any chance of returning to the Wizard Tower as ExtraOrdinary Wizard one day. Bent on revenge, he has a plan to get DomDaniel back into a position of power, and it is up to Jenna, Septimus, Nicko, Aunt Zelda, the entire Heap family, and the Dragon Boat to make sure that doesn't happen. FLYTE is a great follow-up to book one, MAGYK. The Septimus Heap series continues to delight, with its introduction of new characters, intriguing plot lines, and great dialogue. I'm eagerly awaiting book three, which should no doubt continue to entertain! Reviewed by: Jennifer Wardrip, aka "The Genius"

Kurzbeschreibung Enter the world of Septimus Heap, Wizard Apprentice. Magyk is his destiny. The evil necromancer DomDaniel has been disposed of, but something Darke is stirring. A Shadow pursues ExtraOrdinary Wizard Marcia Overstrand around, following her every move, growing stronger every day. Septimus senses something sinister is afoot, but before he can act, Jenna is snatched - taken by the most unlikely kidnapper. Septimus must rescue his sister but does not, at first, realise the power of the forces at work behind her disappearance. Storytellers these days, it seems, cannot write a novel that begins and concludes in a single volume. Some stories, however, are just too gloriously delightful to try and cram into one book and they beg for more space to breathe, to be enjoyed and savoured. Angie Sage began her Septimus Heap sequence of stories with Magyk, and this refreshingly still-just-as-good sequel continues the story of Septimus with great skill and panache. It's been a year since Septimus Heap, the seventh son of a seventh son, discovered his real family and true destiny to be a wizard. As Apprentice to ExtraOrdinary Wizard Marcia Overstrand, he is learning the fine arts of Conjurations, Charms, and other Magyk, while his best friend Jenna (the adopted girl who lived with his family for ten years until it was discovered that she was royalty!) is adapting to life as the Princess and enjoying the freedom of the Castle. But, as is the way with all good fantasy stories, something sinister is still afoot. The evil necromancer DomDaniel may have been disposed of, but something Darke is undeniably stirring. A Shadow pursues ExtraOrdinary Wizard Marcia Overstrand, following her every move, growing stronger every day. Septimus realises the danger but, before he can act, Jenna is snatched, taken by the most unlikely kidnapper. Could it really be his jealous brother Simon who is responsible? Septimus must rescue his sister but does not, at first, realise the nature of the threat apparent. This satisfying second volume, again stuffed with mayhem and thrilling adventure, confirms the immense readability of Sage's novels and consolidates the reputation for her growing sequence of funny fantasy novels that should mean they remain popular with young readers for many years to come. (Age 10 and over) --John McLay.co.uk Storytellers these days, it seems, cannot write a novel that begins and concludes in a single volume.
