Von Gwynne Forster : Fools Rush In (Arabesque) before purchasing it in order to gage whether or not it would be worth my time, and all praised Fools Rush In (Arabesque):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. When "Fools Rush In"....love prevailsVon CustomerThis is another winner from the incomparable Gwynne Forster. No other writer has quite her talent for taking such seemingly insurmountable issues--a child, her biological mother and adoptive father, and the secrets and betrayal haunting them both--and coming up with such an engrossing love story.I made the mistake of taking this book to work and hardly got any work done because I could not wait to find out what would happen next. Duncan Banks is every woman's fantasy of the perfect man...loving, passionate, community-minded, and a fantastic father. And Justine is his perfect match. I cried tears of joy as these two realized the love they shared not only for their precious daughter, but for each other.Last but definitely not least, I want to thank Ms. Forster

for reintroducing Banks and Wayne Roundtree. I absolutely loved the way their story worked out. Please keep me updated! And Duncan's housekeeper Mattie was an absolute riot. Keep up the excellent work, Ms. Forster. I look forward to your next novel.

0 von 0 Kunden fanden die folgende Rezension hilfreich. Deep, realistic and hot - vintage Forster

Von Ein Kunde Gwynne Forster manages to mix some interesting, current social issues with riveting romance. I was so drawn to the characters. They seemed like persons I knew - really knew and could sympathize with. They were real people, with real problems working them out the best way they knew how. And the sexual tension between Justine and Duncan! Talk about burning up the pages without even touching! That was fantastic stuff. The romance between Wayne Roundtree and Banks added a nice touch to the story. Mattie was a riot. A beautiful storyline with memorable characters with their own special quirks and faults, but still perfectly loveable. No scenes which came over as artificially contrived. A definite keeper. Keep it up Ms. Forster - I love your stories.

Von Ein Kunde The main characters in this story had both been played for a fool by their spouses. Imagine being 8 months pregnant and finding out that your spouse had been having an affair, and has just died in a motel fire with his white mistress. Would you not mentally and emotionally freak out? The heroine of the book, Justine did just that...which leads her to doing something she would never have done under normal conditions---give her baby girl up for adoption. Once she was emotionally healed enough to go looking for her baby, she found not only her daughter, but the love of her life in Duncan, the man who had adopted her. Duncan had issues of his own, but it just made the story more interesting. A great read which I highly recommend.

Kurzbeschreibung After a devastating tragedy sent her into a severe depression, Justine Montgomery gave up her newborn daughter for adoption. Realizing her mistake too late, she discovered her daughter had been adopted by divorced journalist Duncan Banks and that he was looking for a nanny. Without revealing her identity, Justine took the job and was determined that securing her child's future would be the only passion in her life. But she never anticipated Duncan's growing suspicions about her or the powerful attraction between them. A poverty-ridden childhood and a failed marriage left Duncan Banks unwilling to trust in anyone but himself. It didn't take him long to realize that there was something not quite right about his daughter's otherwise perfect nanny. But in trying to uncover Justine's secrets, Duncan soon found his own vulnerabilities were at stake. With divided loyalties and an unexpected passion threatening their fragile relationship, Justine and Duncan must risk revealing more than they ever imagined to achieve what they never dreamed possible.
