SolinasThe beautiful sequel to the even better "Til Death Do Us Part" features April shortly after Mark's tragic death from a crash and his cystic fibrosis.April is still trying to recover from the death of her beloved fiancée, Mark Gianni. Going to the town of St. Croix, she meets a young man named

Brandon who begins to fall for her. Though she befriends Brandon, April refuses to go any further, feeling that it would be a betrayal of Mark. But when April's brain cancer comes out of remission, she knows that she will soon die. But the young man who's fallen in love with her doesn't want to see her die... This is a heartbreaking story - you feel sorry for both of the characters, April because of her loss, her cancer and her desire not to love again; and Brandon because of the life he and April can't have. Brandon's final scene is so touching and loving that I almost howled. Forget the usual romances. These books show true love as it really is.
