Okay startVon SiniFis***I received this book in exchange for an honest review from the Author and the Lovers of Paranormal Group on Goodreads.com***All the time during the first pages, my only thought was: Way too fast! They just met and were mated a few sentences later. I felt that there was no sparkling tension between the characters. I didn't

really like the name of the male main character, especially his nickname/shortform. I thought it was a kind of basic start for a new shapeshifter series. It is a nice and easy read although it takes a little time to get the plot straight in your head.

Kurzbeschreibung Shapeshifter civil war has spilled out onto the streets of Boston, Massachusetts and its up to the Order to keep the peace. The New Breeds, the eight most powerful shifter warriors in existence, must prevent the renegade Toltec from overthrowing the human race. Soaring Eagle has received the call to join the Order. The only problem is he doesn't remember anything but his name. Injured while on the way to join his new brothers, he meets Ana, a mysterious female he's immediately drawn to. Unable to fight the mating call, their souls bond. Just when it seems nothing can go wrong, he discovers that he's fallen for the very enemy he's meant to defeat. No matter how he chooses, there will be betrayal. But who will face the consequences - his new mate or his brothers in the Order?
