for her confidential informant, but she can't walk away. She needs this case her career needs this case. And suave thief turned FBI asset Connor Randall is too deep in the mob syndicate to pull out now. But when the crime boss they are trying to take down becomes a target himself, Josie is forced to take Connor into hiding without blowing his cover. Now, dodging hit men and fighting a perilous attraction, she has to make a life-and-death decision. Can she trust the man who has stolen her heart or is he working one last con? Review: I didn't read the previous book "In Pursuit of a Princess" (where Connor was introduced) but "Forced Alliance" can be read as a stand alone. Somehow "Forced Alliance" reminded me of a steamier version of the TV Series "White Collar". A criminal turned FBI asset? Schemes of revenge and betrayal, turned agents and gangster clans? Count me in! I loved how the stern Josie and charming Connor danced around each other and after all they went through, got their deserved HEA (yes, sorry about that spoiler ;)). As for the ending of the story, I was surprised how it played out but it left me a bit unsatisfied for Connor, where was the retribution for the things he had to endure? It was frustrating to read that he sat face to face with the person responsible for his pain (not spoiling that!) and not being able to do anything. Don't get me wrong, I'm not a supporter of violence, but when the agents stopped Connor lashing out at the culprit I was equally angry at the situation. I guess, I got sucked into the plot because of Lenora Worth's great storytelling :) For some time I almost felt like watching a movie - instead of reading a book. Great romantic suspense with two strong leads~
