Von Charmaine Ross : Four-Leaf Clover before purchasing it in order to gage whether or not it would be worth my time, and all praised Four-Leaf Clover:

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Tasty, tasty book! Von CoffeeAndBooks Dieses Buch wurde mir von NetGalley zur Verfügung gestellt This book was provided by NetGalley for review purposes. The story of "Four-Leaf Clover" reminded me of the movie "You've got mail",

where the heroine falls for her competitor. Charmaine Ross writes loveable characters (except for the villains of course) and sometimes I even had the feeling that I was standing right in the bakery of Clover, the heroine ;) There was a tad too much drama (a sick mother, loan sharks and a big coffee chain as competitor) and I didn't particularly like the hero, Liam because he acted like a big jerk for the majority of the time, but the witty dialogues (oh, I liked Clover's friend Holly!) and the engaging writing style of Charmaine Ross made it an entertaining romance novel. Seriously, this book is like a perfect apple pie, with all the right ingredients, slightly bitter-sweet and a crispy crust :D

Kurzbeschreibung A sexy, sugar-laden David vs Goliath story about a local bakery, a national chain, and what really matters. Clover Loveday has worked hard to get her caf Four-Leaf Clover up and running her ticket out of an increasingly alarming financial situation and her dream come true. When she literally falls off her ladder into the arms of sexy-as-sin Liam Sinclair. The same Liam Sinclair who owns the new bakery being built just across the road...the new store by bakery chain Upper Crust owner! Clover decides then that no matter how nauseated she is about the idea, it is best keep your enemies close, rather than leave things to fate. Liam has never put too much thought into the competition when he opens a new outlet, other than taking their customers and strengthening the Upper Crust brand. But here in the beautiful Dandenong Ranges, Clover Loveday's cafe is a little too close for comfort, and Clover herself a little too good-looking. So Liam asks his PA to put together a fact sheet about his new competition. He has a business to run, a father to please, and hundreds of people to keep in jobs. Surely information can keep an unwanted strong sexual pull at bay...A sweet, caffeinated, satisfying story about unexpected temptations, forgiveness, and putting love before money. Praise for FOUR-LEAF CLOVER: 'With likeable characters and warm and friendly town setting, this book is perfect for any chick lit fan.' The Reading Realm 'If you are looking for a tender romantic read for an afternoon - escape to small town Australia with this book. You will be left with a smile on your face.' Elder Park Book s 'A tempting sweet treat for an idle afternoon.' Book'd Out 'Four-Leaf Clover is an adorable romance... I wanted to drink coffee and eat sweets the whole time I was reading this.'
