Von Megan McCafferty : Fourth Comings before purchasing it in order to gage whether or not it would be worth my time, and all praised Fourth Comings:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Clever, romantic, sarcastic so much more. YA at its best!Von Miss Page-TurnerThis review cannot even express the sensation of perfect contentment I felt while being invited to stay in the wondrous world of Jessica Darling, queen of sarcasm and protagonist extraordinaire.In her five-book series Megan McCafferty allows us to follow Jessica on her way from being a teenager to a young woman, with all the responsibilities and decisions awaiting her in future. It was great to

witness everything going on in her life over such a long span of time. I didn't want to miss one single of her thoughts. Because even though I am not a teenager anymore, it felt so good to read on page what makes these years so angstful and exciting at the same time. Every character contributes to the masterpiece of fun and hilarity -without ever forgetting that there's also the serious side of life- the Jessica Darling series stands for. I loved them all! Marcus Flutie, Jessica of course, her best friend Hope, the parents, her sister and her niece, to name only a few. Marcus Flutie is the main love interest and an extreme case of changeability. It's obvious that he hasn't found his place in life yet, always restless, always changing his mind and his heart about his future, his goals and even Jessica. I'd subtitle this series 'The metamorphosis of Marcus Flutie'. Alternative and surely not mainstream, he always seems to be on an experimental trip. We don't get him more often than we do, but when we connect, it's in all the right ways. Jessica is witty and her humour is the best. I laughed, I cried. I can't believe how she always said and thought exactly what I was thinking. I wish I read this series much sooner. A revelation to every young adult reader! Jessica and Marcus make mistakes, get together, separate again. Life comes in the way, wrong decisions play a part. It's just too much to point out every turn their relationship or lives make. There are so many scenes that need to be all time favourites! You. Yes. You. Marcus Flutie you stole my heart. The first two books SLOPPY FIRSTS and SECOND HELPINGS are about Jessica's time in high school. CHARMED THIRDS covers her years in college, from 2003 to 2005. FOURTH COMINGS is about time after graduation and what she wants to do for a living. We are very lucky, because Jessica is keeping a diary. And the writing is as appealing as it is, because the story is written in the style of numerous diary entries. It has a very personal character and feels like we are just inside her head, going through everything she experiences and feeling as much love for Marcus Flutie as she does. Her writing is changing over the course of the series, especially in the fourth book, which is great, because it's a fab way to express change in her person or her ways of thinking. This series is a guide for all young, sarcastic, lovable and insecure girls out there! Megan McCafferty, I thank you for all the hours of laughter and tears your novels brought into my house. You are a marvelous writer and I'm expecting to see many more books of you on my favourite shelves in the near future. I hope that we can find a version of that incredibly admirable and lovely Jessica Darling in all of us. 5/5 ***** JESSICA DARLING series - Clever, romantic, sarcastic so much more. YA at its best! SLOPPY FIRSTS recently had its 12th anniversary. Unbelievable, but true. This series is in no way inferior to contemporary YA relatives in its originality or actuality. This is a series that needs to be handed down to your kids, they will surely love to read about that Jessica Darling when they are growing up. And for everyone who hasn't read this series, I suggest you catch up on it now. It doesn't matter if you are 13 or 30, you will get and love it!

Kurzbeschreibung At first it seems that she's living the elusive New York City dream. She's subletting an apartment with her best friend, Hope, working for a magazine that actually utilizes her psychology degree, and still deeply in love with Marcus Flutie, the charismatic addict-turned-Buddhist who first captivated her at sixteen. Of course, reality is more complicated than dreamy clichés. She and Hope share bunk beds in the Cupcake the girlie pastel bedroom normally occupied by twelve-year-old twins. Their Brooklyn neighborhood is better suited to breeders, and she and Hope split the rent with their promiscuous high school pal, Manda, and her genderqueer boyfriend. Freelancing for an obscure journal can't put a dent in Jessica's student loans, so she's eking out a living by babysitting her young niece and lamenting that she, unlike most of her friends, can't postpone adulthood by going back to school. Yet it's the ever-changing relationship with Marcus that leaves her most unsettled. At the ripe age of twenty-three, he's just starting his freshman year at Princeton University. Is she ready to give up her imperfect yet invigorating post-college life just because her on-again/off-again soul mate asks her to... marry him? Jessica has one week to respond to Marcus's perplexing marriage proposal. During this time, she gains surprising wisdom from unexpected sources, including a popular talk show shrink, a drag queen named Royale G. Biv, and yes, even her parents. But the most shocking confession concerns two people she thought had nothing to hide: Hope and Marcus. Will this knowledge inspire Jessica to give up a world of late-night literary soirees, art openings, and downtown drunken karaoke to move back to New Jersey and be with the one man who's gripped her heart for years? Jessica ponders this and other life choices with her signature snark and hyper-intense insight, making it the most tumultuous and memorable week of her twenty-something life. From the Hardcover edition. From Booklist Jessica Darling, last seen in Charmed Thirds (2006), is finally a college graduate, but other than her brand-new degree, nothing has changed. She still overanalyzes everything, including her relationship with Marcus Flutie, her on-and-off-again love, who has finally settled down and is about to start school at Princeton. Jessica is just about to end their relationship when Marcus shocks her with a marriage proposal. Most of the novel covers Jessica's musings during the week she takes to decide whether or not to say yes. Like any recent graduate, she is struggling to make the rent, find a job that will pay the bills, and, basically, grow up. Charming and fitting as it was in McCafferty's earlier tales, when Jessica was in school, her protagonist's ponderous examination of her life, friendships, and relationship with Marcus is a bit tiresome this time around. Fans of the series will enjoy seeing Jessica and her friends coping with the real world, but here's hoping that if there is a fifth installment, Jessica will have matured. Huntley, Kristine Praise for the Jessica Darling Series Judy

Blume meets Dorothy Parker. Wall Street Journal McCafferty looks at travails with humor as well as heart. People A witty, biting, and altogether true accounting of a girls journey to young womanhood, complete with all of the cringe-inducing, hilarious moments of love, shame, and uncertainty that readers will remember from their own lives. Jennifer Weiner
