Unabashedly witty, unquestionably funny Von Christine This is one of the most surprising books I have ever read. It is not a standard erotic novel, it is not a standard anything. It is a joyful and unabashedly cheeky romp through ancient mythology and modern life. Unabashedly witty, unashamedly funny, unquestionably passionate - definitely a must to

read. I am a little bit in love with Freya and have decided to take her as my role-model ;)1 von 1 Kunden fanden die folgende Rezension hilfreich. Very enjoyable and refreshing readVon C. ReillyFREYA BEING FREYA is a very unique and well written story with a fresh take on Viking goddess Freya and Norse mythology. Im not the biggest fan of erotica, but this novel was well worth pushing my reading boundaries. The author managed to capture my attention from page 1 with his witty, sexy and fantastical storytelling.
