Von Jane Davitt, Alexa Snow : Room at the Top (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Room at the Top (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Can I get a sequel, please? Von Sunne Where to begin? Jane Davitt creates multilayered characters - this is one of the reasons I loved "wild raspberries" and "wintergreen" so much. In "Room at the Top" we are presented with characters we get to know throughout the book, all have their strengths and weaknesses. I honestly can say, that I fell in love with Jay and Austin. I couldn't always follow them in their need to get hurt but I loved how different they were and how wonderful

in tune with each other. I had my problems with Liam at the beginning because for a highly intelligent man, so much in tune with the different needs of his subs, he felt stupid to not realize what happened to him. April was an annoyance but needed to create the stress from outside, I disliked her as much as everyone else but don't think that the book would be better without her. You need the dark to see the light. And the end was too short. They just started something new, fragile and still in need of new rules. It was not enough to reassure me that everything will work out. So - instead of 5 stars...only 4 - which really means, damn, can I get a sequel??? Please, sir?
