standalone, but it makes the most sense to read them in order so that you can enjoy how the background story develops. No cliffhangers, only curiosity. This series started with Marcus and after reading that one, I immediately got all the others and dived right into the story of the alien and their destruction of earth. The story is set in a world similar to modern times, but still ahead of us, not too far, so that you can still feel with the humans. All romantic relationships unfold around a piece of the story, the fight against the aliens. The aliens are designed as dinosaurlike creatures with their own agenda. While you can read every book as a standalone, you have recurrent topics that are the base for the next chapter, but the author brings them up in the new book, so that you can follow the story without having to read the previous ones. This book goes much more into the depths of the invasion and unfolds a huge piece of the main story whilst the heroine struggles to regain her memory, the hero pushing her hard to share the information he thinks she is hiding from him, as well as the guilt that she feels. But when they have to team up they learn to trust and depend on each other and together they encounter more truth of the past and the future. For me, this book is so far the best, the story captivates you, the characters are well written and you are always in for a surprise. Am very much looking forward to the next one in that series.

Von DaConAgain another great book by Anna Hackett in this amazing series. This is a standalone book, but for better understanding about the other characters mentioned I suggest to please read in order. And that's actually something I love about these books; the characters starting in the previous ones aren't forgotten. In this one Roth, leader of Squad 9 believes that Avery, a woman he rescued from a tank in an earlier book, has vital information about the aliens who invaded earth, unfortunately she doesn't remember. So as to not give away any spoilers, just in short: She's trying hard to remember anything from before her time in the tank, about her old job as a Coalition Central Intelligence Agency agent. On their journey they have to face many dangers, discovering a terrible betrayal when Avery finally remembers; but facing all that together doesn't just provide backup for each other, it of course also helps for falling in love. Looking forward to the next one of Hell Squad: NOAH. I received an ARC for an honest review.

Von punsIch liebe Anna Hackett's Schreibstil. Ihre Hell Squad Serie wird von Buch zu Buch besser. In Roth begleiten wir die Romanze zwischen Roth Masters und Avery Stillman, die in einem früheren Buch von Roth aus der Gefangenschaft der Aliens gerettet wurde. Ebenso wird mehr über die Anfänge der Alieninvasion erzählt als Avery versucht ihre Erinnerungslücken zu schließen. Roth bekommt mit Avery eine passend starke Partnerin mit der er natürlich erst gefährliche Situationen bestehen muss. Besonders schätze ich das in dieser Reihe immer wieder die Protagonisten der vorangegangenen Bchern ein Teil sind und wir so immer auf dem laufenden sind :). Roth ist definitiv ein Muss für Fans dieser Serie. Ich freue mich schon auf die nächsten (hoffentlich bald kommenden) Bcher. Kopie erhalten für eine ehrliche Rezension

Kurzbeschreibung In the aftermath of a deadly alien invasion, a band of survivors fights on... Roth Masters is a protector to the bone. Driven by the losses of his past, he fights side-by-side with Hell Squad to protect the human survivors of the alien invasion. As leader of Squad Nine, he and his team are known for their perfect timing in a firefight. But Roth knows they need more intel on the raptor invaders--something to turn the tide of the battle. And he knows the woman he rescued from an alien facility is hiding secrets he desperately wants to uncover. Former Coalition Central Intelligence Agent Avery Stillman is still adjusting to her new life. Left with terrible gaps in her memory, she has vague recollections of failed negotiations with the aliens, the invasion, and after that...nothing. Until a hard-bodied soldier pulled her from a tank in an alien lab. Now she's trying desperately to remember, to help fight back, and also battling the crazy attraction to the man who keeps pushing her for things she can't remember. Soon Roth finds himself torn between his duty and keeping the strong woman he's falling for safe. As the pair head into alien territory to investigate, they are attacked and crash land alone, far from base. They have to work together to survive the aliens, but when Avery finally remembers everything...her secrets could annihilate all they hold dear. Includes a preview of Noah, Book 6 of Hell Squad.

Q A with the Author

Q - How would you describe the Hell Squad series?

A - Tough, alpha soldiers battling invading aliens. Hell Squad is science fiction romance with a dose of post-apocalyptic grit and a serve of military romance. There is lots of action, adventure and romance. But even in the middle of a fight for survival, the series is focused on hope, friends, family and love. Hell Squad has been one of my bestselling series and I'm thrilled the Hell Squad gang have so many fans.

Q - Why did you want to write the series?

A - I love action, adventure and romance. And I love science fiction romance and all the endless possibilities. I also wanted to write something that was a little darker and grittier than my more adventure-filled series, the Phoenix Adventures. Then I had this image of a former society party girl wearing fatigues squaring off with a scarred, battle-hardened soldier and Hell Squad was born. I'd intended it to be a single story...but the Hell Squad soldiers had other ideas and literally came to life as I wrote the first book!

Q - What order should I read the books in?

A - All the Hell Squad books have stand-alone romances in them but the action arc of the invading aliens grows with each book. Many readers have entered the series with later books and they haven't been lost, but, characters from the early stories do appear in later books and I really think it adds something to the reading experience

to read them in order. Here's the order I suggest:- Marcus
