close to him. While thinking about how lonesome he really is, he is surprised to see someone move towards his house in the snow. He finds a frozen woman, awaking his need to protect her, care for her. He calls her Ruby as she pretends not to remember who she is. Ruby has been held captive for years by... Master, a Sadist using her as sex object, humiliating her, shaping her to meet his desires, trying to break her until this night, when she finally runs away. When Harry saves her, cares about her the sub in her wants him to help her heal her wounds. Their attraction towards each other is undeniable. How broken is she really? How long will it take to show her what a D/S really is like? And then? Both take slow steps towards each other, but her old master has not given up on her and danger lurks in the shadows surrounding their ... whatever this relationship might become. The story is not too long 150-200 pages. The plot is not very new, woman leaves an abusing Dom and heals with another, I've read this already. But the writing makes the story nice, the characters description is good. The story is written from the POV of Ruby, Harry and Master which give a nice insight of all three characters. Their relation however developed much too fast and this kept me reading the story without really attaching myself to the characters, nor to think that it is a really hot story even though it is erotic. This is a nice and fast read, erotic and nice, but not new and lacking some development to be really good. Enjoy the read MBTM
