Von Sela Carsen : Runespell (Legends and Lore) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Runespell (Legends and Lore) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Superb story tellingVon KtzchenThis is the second story I have read by Sela Carsen and certainly not the last. As stated before, Sela is a master at mixing lore and legends to enchanting tales, with vivid characters and amazing story lines.Mai Westenra certainly did not expect to get chased and nearly killed by a couple of maniacs and not to mention getting saved by a handsome man with an astonishing secret.Tyr Halvarsson did not expect to fall for the woman he pulls out of the lake and who might turn out to be his saviour.This book is amazing and I'd LOVE to see more of these

characters.

Kurzbeschreibung In most fairy tales, the prince rescues the princess. It's not often she gets to return the favor. Mai Westenra is pulled into a centuries-old quest for vengeance and magic, never realizing that she'll find love in the midst of danger. Tyr Halvarsson has waited lifetimes to be rid of his curse. Resigned to his immortal half-life, one selfless act of humanity can redeem him. Or kill him. Together, Mai and Tyr must work against time and magic to perform the runespell that will save their lives and give them a chance at love that lasts.

ber den Autor und weitere Mitwirkende Sela Carsen was born into a traveling family, then married a military man to continue her gypsy lifestyle. With her husband of 20 years, their two teens, her mother, the dog, and the cat, shes finally (temporarily) settled in the Midwest. Between bouts of packing and unpacking, she writes paranormal romances, with or without dead bodies. Your pick.
