What I found was a brilliantly written book that kept me involved throughout the whole story. The characters and locations were excellently described to the point where I could close my eyes and picture the scenes and the people in them. The

emotions were captured brilliantly, from the sinister intentions of the villain, the overwhelming feelings of falling in love to the outright anger that overflowed from our heroine and heroes as the various twists and turns presented themselves. I really enjoyed this and would say to anyone who is not sure about reading a romance, this is the perfect book to read. 1 von 1 Kunden fanden die folgende Rezension hilfreich. A fabulous read. Von Tarian Green This book is different from your normal romance stories. The characters are very believable and it is a beautifully written story. I don't normally read romance but when browsing through the cover and plot description caught my eye. Also I wanted something different to read whilst on holiday. If this is the new face of romance I was pleasantly surprised. I was hooked from beginning to end and my warm glow was not just from the sun. I shall definitely be reading more from this talented author.

Kurzbeschreibung Book 1 in the Scarred Series. He once had it all, but for three years retired special services expert, Patrick Reeves has hidden himself and his terrible war wounds from the world. But when a bright, beautiful woman buys the ruined chateau and estate on which his own home stands, it is more than Patrick's unerring control can bear. For her to flinch from his injuries would be terrible, but for her to pity him would be the final insult. His only option is to make sure she never sees him at all. Ellen doesn't give a damn what Patrick looks like. With one glimpse of his shaded figure, one touch of his work-roughened hands, and one hint of his masculine scent, she is his. Forever. Buying the abandoned French chateau had been a dream, her only desire since her brother was blown up in Afghanistan, if she could only capture the elusive Patrick, her world will be complete. But Patrick is hiding from far more than himself. Devastated when her wounded hero abandons her for a flame-haired beauty, and terrified when her selfish ex-fiancee reappears, Ellen discovers that she might not only lose her lover but also her life. Can Patrick escape in time to save the woman who loves and accepts him exactly as he is, or will she be lost to him forever while he has been Running Scarred for far too long? 2015 revised edition. Running Scarred is a sensual military romance, gently exploring the emotions stirred by disability caused by war. Suitable for age 16+ Kurzbeschreibung Book 1 in the Scarred Series.
