Von Nic Starr : Rustic Memory (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Rustic Memory (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Aaaaw, I think I really found a new go-to author for books that transport me to my happy placeVon BookwormAfter reading Rustic Melody I had this big smile on my face and this sweet goey feeling in my stomach. So I was one happy little cmaper when I received the second series in the series.And while the story contains some darker and more angsty

themes, overall it still was a sweet and light read that brought me back to my happy land with all the love and rainbows. Bite me, on some days I need all the fluff I can get. This installment though, really starts with a bang. Tyler, running wild with his best friend and lover, witnesses the tragic accident that ends his first boyfriend's life. Fast forward, years later he's still feeling the pain, but in addition to that, he has a whole new set of hurt, loss and loneliness he's bringing home with him to Armindale. Mac McGrath spent his whole life in Armindale, leaving his gangly, awkward teenage years (in which he had a huge crush on Tyler) behind, growing up and growing strong, only to discover that his crush on Tyler Samuels might not be as long forgotten as he thought it was. I really enjoyed their journey together, although I might have wanted a little more exploration of the dark side of things. Tyler's grief and pain are present, no doubt about it. And they still influence all his actions greatly. I guess I could have done with a little more grieving and coping. But then that's probably just me, plus: the loss was not exactly completely fresh. So yeah, that one's on me. Other than that I didn't connect as much to these two guys than two the MCs in the first book - but again: that's on me. It's still an engaging, sweet and heart-warming read and I definitely recommend it to everyone who is looking something that warms you up from the inside and makes you smile.

Kurzbeschreibung Third time lucky is too much to hope for. Isn't it? Tyler Samuels had his reasons for leaving the country town where he grew up. He moved to the city, established a home and a career, and found love. Now Ty is in his early thirties, and as his life takes another tragic turn, he finds himself returning to the place he first ran from. Mac McGrath has lived in Armindale all his life. He loves his family and his job as an electrician, running the family business. The only thing missing in his life is a relationship. When Ty, his teenage crush, arrives back in town, maybe he has found someone to love at last. What starts as friends with benefits quickly turns to more for Mac, but Ty will need to let go of his memories if he is to learn to love again. But can Mac wait that long? But can Mac wait that long? ber den Autor und weitere Mitwirkende Nic Starr lives in Australia where she tries to squeeze as much into her busy life as possible. Balancing the demands of a corporate career with raising a family and writing can be challenging but she wouldn't give it up for the world. Always a reader, the lure of m/m romance was strong and she devoured hundreds of wonderful m/m romance books before eventually realising she had some stories of her own that needed to be told! When not writing or reading, she loves to spend time with her family an understanding husband and two beautiful daughters and is often found indulging in her love of cooking and planning her dream home in the country.
