**Von Kate Sherwood : Sacrati (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sacrati (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Loved it!  
Von KundeLoved this story. I really really loved this. The writing was great, the story was superb. Highly recommend it. !1 von 1 Kunden fanden die folgende Rezension hilfreich. If you enjoyed Captive Prince this is probably somewhere up your alley  
Von Strawberrygeek3,5 blood smeared stars for this interesting readWhile on

patrol, Theos and his comrades encounter a group of Elkati soldiers who trespassed on Thorian territory. They are, minus a few casualties captured and supposed to be brought back with them. Prisoners in Thorian are either sold as slaves, kept as bedwarmers, or, if they're man enough, trained in combat. The clash of cultures couldn't be any more mind boggling for the young Elkati prince and prisoner Finnvid. Back in his motherland the social and power structure differ so greatly that one can hardly compare them. The woman are in charge of everything besides the military training and there is no royalty, not aristocracy or marriage! The Elkati army isn't nearly as good trained as the Thorian man, especially the Sacrati, an elite group of soldiers to which Theos belongs. And most of all back in his home country man don't have sex with each other. Especially not where others can see or hear everything that's going on! Of course there were rumors about their practises, but hearing about it and actually witnessing things are two completely different things. The Sacrati Theos knows that something about the captives is different this time around when the warlord wants to sell each and everyone of the Elkati trespassers as slaves. Especially medically trained, Thorian speaking Finnvid won't stop nagging at his mind, and in the spur of the moment he saves Finnvid from being sold to who-knows-where. The warlord's reaction shows that something big is going on and that Theos really shouldn't stick his nose into it if he cared about his own well-being. Finnvid obviously knows more about the whole affair, but refuses to offer any information to Theos and soon enough the Sacrati's need to find out what's going on, makes room for a totally different kind of need. It's only his luck that Finnvid is Elkati, which think that the act of man lying together is a sin. But who is Finnvid? And what sinister plot is slowly unfolding that threatens not only their lives but the whole Thorian system? Lies, betrayal, slaughter, difficult journeys and decisions are awaiting Theos and no one knows what the end of it all will look like. But Theos is Sacrati and Sacrati fight. It was a bit difficult for me to rate this book as I didn't enjoy it as much as I thought I would, my expectations were set much higher. Probably because the summary reminded me so much of *Captive Prince* by S. U. Pacat and my thought were little more than 'Yes! Gimme gimme gimme!' The plot was good though, and the different systems, were interesting, although the world building was a bit lacking. I kind of found Finnvid's apparently sudden love for Theos weird. For me their relationship lacked the chemistry. What I found nice as well was that, though it was fantasy, the names were easy to read, not like some of the names I encountered in other novels of the same genres. It isn't fun if you need minutes to figure out how to read a name or get so frustrated that you just stop reading the name at all and end up simply registering the appearance of it. ~I received this book from Netgalley in exchange for an honest review~ 0 von 0 Kunden fanden die folgende Rezension hilfreich. medieval knights, machinations and different cultures Von E.T. The enemy lives across the border, that's what Theos, an elite soldier believes. Or did so, until he captures a small group of enemies who are so different from the picture of the enemy that was painted to him, so he begins to think. A bad habit in an autocratic society. The story is really good and every now and then it takes a turn I didn't expect. To keep the story compact, some scenes were kept short, that's the only minus I have.

**Kurzbeschreibung** As an elite Sacrati fighter in the mighty Thorian military, Theos is blessed with a city full of women who want to bear his children, and a barracks full of men proud to fight at his side and share his bed. He has everything he needs until he captures Finnvid on a raid. Finnvid is on a secret mission to prevent the Thorian invasion of his homeland Elkat. Being enslaved by Thorian soldiers wasn't in his plans. Neither is his horrified fascination with the casual promiscuity of the Sacrati warriors. Men should not lie with other men and he should not be so intrigued when they do. He definitely should not be most intrigued by the leader of the soldiers who captured him and plan to invade his home. For Theos, everything would have been easier if the infuriating, lying, bewildering Elkati had never come into his life, but he can't stay away. When betrayal and treachery threaten both their nations, they must work together to stop a war that could destroy their homes forever even as they begin to question everything they're fighting for. Word count: 114,000; page count: 407
