Harper...OMG they are so HOT together Von Cassandra Bran and Harper...OMG they are so HOT together I thought my kindle will caught fire! This story is about loyalty, trust, boundaries, friendship, love and lust! Harper has to deal with the "legacy" her mother has left behind in Muddy Gap when she left and no one is making it easy for her. And also with her little sister who's yet not talks about her future plans. Bran is left short of a helping on his ranch. He's a quiet, hard-working rancher that would always step in to help his friends. So when Celia suggests someone to help him on the ranch, he is eager to accept it...yet he's in for a surprise who it is. Things are going rather well when Harper is helping out Bran as his new ranch help. Until feelings get involved and decisions are made and people give their unwanted opinions. It's a great read and as always with Lorelei James books/series you get hooked with the characters and their stories and you also want to know more about every one else!

Kurzbeschreibung Cattleman Bran Turner is left shorthanded during busy calving season when a bull tramples his hired hand. Rural Wyoming isn't exactly a hotbed of qualified candidates, and the only applicant for the position is the pampered town beauty, Harper Masterson. The curvy cowgirl gets under Brans skin at every turn, but with no other options, he reluctantly hires her. When sexual sparks ignite, down-on-her-luck Harper enjoys convincing Bran that not only is she capable of pulling calves, feeding live-stock, and handling backbreaking ranch chores, but she doesn't mind getting down and dirt. Harper also discovers the hot-bodied cowboy isn't all work and no horseplay and hes got more than a few tricks up his sleeve. Bran will learn quickly that Harper is no country mouse and that she might just have what it takes to stick around for the long haul.
