Von Daphne Clair : Salzano's Captive Bride (Mills Boon Modern) (Mills and Boon Modern) before purchasing it in order to gage whether or not it would be worth my time, and all praised Salzano's Captive Bride (Mills Boon Modern) (Mills and Boon Modern):

FischerAmber is more than surprised when furious Venezuelan millionaire Marco Salzano appears on her doorstep in New Zealand claiming that she had a one-night stand with him and tried to blackmail him with the baby she had. As it turns out, her sister Azure, who looks very much like her, is the culprit. Since Azure would risk her marriage and possibly lose her son if Marco claimed the child, Amber tries to cover for her and ends up in a deal with Marco: They will marry and move to Venezuela where Amber will have his child. Afterwards she is free to stay or leave, but the child will stay with him. Despite her anger and frustration, Amber soon feels attraction, then love for her husband. But does he want more than a child out of their marriage?Apart from the almost forced marriage, which seems a bit extreme from a modern point of view, this was a convincing romance novel with good characters and atmosphere. It's nice, definitely good entertainment and above average quality (especially for Harlequin). I would recommend it and will read more by this author.
