Von Mercedes Lackey : Sanctuary: Joust #3 (Dragon Jousters) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sanctuary: Joust #3 (Dragon Jousters):

KundenrezensionenHilfreichste Kundenrezensionen4 von 5 Kunden fanden die folgende Rezension hilfreich. Sanctuaries DragonsVon CatalusThis book could be the final one, because it most storylines find a satisfing ending.

But I won't make predictions. After fleeing to a hidden city in the desert, Kiron, his wing and the other refugees start to build a new life for them. However the small community swells from day to day. New refugees arrive not only from Alta, where the Magi gain more and more might, but from Tia as well, where their black magic has gained a foothold too. Besides the logistic problems, the need for new Jousters grows, because with the increasing population it becomes more likely that the magi discover the hidden stronghold. Meanwhile in Alta the Magi's tyranny crosses more and more boundaries and the only the Jousters have a chance to save some of their victims...

Kurzbeschreibung In the third novel of the best-selling Dragon Jousters series, The Altan serf Vetch has escaped the enemy kingdom of Tia, only to find his homeland, Alta, enslaved by the evil Priest-Kings. With a small band of followers, Vetch must gather a secret army of dragon riders to rid their world of war and magical domination once and for all. From Publishers Weekly In Lackey's well-crafted third Dragon Jousters book (after 2004's Alta), wing-leader Kiron, the former serf known as Vetch, and a disparate group of refugees from the countries of Alta and Tia flee to the desert, to a hidden refuge that the gods have uncovered and named Sanctuary. In Sanctuary, Kiron and a small cadre of Jousters are safe from the evil Magi, who are draining Alta and Tia of their "gifted ones." Kiron and the Jousters with their magnificent dragons, who have as much personality as the human characters, must learn to co-exist in a land of extremes. Kiron discovers that it might be possible to deal with some of the freed dragons of Tia who have gone wild. Even though Sanctuary may be concealed from the diabolical Magi, no one living there can forget their presence. Once again, Kiron and friends must face their fear and brave danger to help save Alta from the Magi's depravity. Spot-on dialogue and just the right amount of exposition mark this rip-roaring adventure as superior fantasy fare. Copyright Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. From Booklist The Magi continue their evil machinations in the sequel to Alta (2004) by draining the powers from other magic workers to enhance their own and to keep themselves young. They also have developed the Eye of Light, a terrible weapon that can kill anything in its path. Kiron and his fellow jousters and dragons, together with some members of the royal family and friends, are forced to flee into the desert to a lost city now known as Sanctuary. They know they need to hide from the Magi and increase the number of jousters and dragons to wage a war. Refugees from both Alta and Tia begin to straggle into Sanctuary, seeking asylum. The jousters make desperate forays to rescue those being drained of their powers and get set for the forthcoming battle with the Magi. The tension is palpable throughout as Lackey wraps up the trilogy begun by Joust^AB (2003) in fine style, remaining true to the characters and their world.
