KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. gripping story- fresh styleVon fishboneElla really knows how to do it! I always thought you needed thorough descriptions of scenery, people's looks, the omniscient narrator who created the atmosphere in which the characters operate. Now I know differently. Ella just throws you right into her story, drags you along by your hair or wherever, no time for

leisurely describing the way raindrops glide down the window- life is happening at a fast pace and you're in the middle. Tunnel-vision and all. By changing between the character`s each chapter, telling their parts of the story in 1st person you get this feeling of being right with them. And there is drama galore- makes you feel that your personal worries in your real life aren't so great after all. Unfortunately there really is a lot of domestic violence, child abuse etc out there, so what Ella describes may be fictional in detail, but I bet there are unfortunate people who know this kind of story too well. So, the plot may look constructed at some points, but the overall situation is pretty realistic. Her characters are deep, multi-layered personalities each marked by their personal history- overall an intense book!
