Lady Nicole, at 23, is a spinster due to the scandal she caused when she came out several years earlier in front of the Ton in London. She's decided she likes her solitary life of running free with her horses and doesn't need to be married to be happy. That is until she meets Hadrian, Duke of Clayborough at a masquerade party she is forced to attend due to pride when the invitation is spat at her from the snotty Lady Stacy. I really liked Nicole's personality, she doesn't let anyone walk all over her and stands up for herself. Once she realizes that Hadrian is betrothed and only wants her for one thing she lets him know exactly how she feels by trying to give him a well deserved whack with a riding crop, no whining and no tears just pure unrestrained anger. I loved it. Hadrian, on the other hand, took some getting used to. He's one of those guys that thinks it's his right to screw around on his fiancée as long as he does it with married woman and doesn't get attached. Once he discovers Nicole is unmarried he breaks it off immediately and also breaks her heart in the process. I was really ticked at him, but rake that he may be, he was betrothed to Elizabeth since she was two and although he genuinely cares for her he feels no great love towards her and thinks of her more as a sister. Even though Nicole gets under his skin the way no other woman has his strong sense of duty will not let him break it off with Elizabeth. The couple have many obstacles to overcome, Elizabeth being only the first one. They experience a very bumpy road when all could've been cleared up with a little communication but because both of these characters have such stubborn personalities and loads of pride they both suffer. This book also turned out to have a very engrossing secondary story about Hadrian's mother. I really enjoyed this one, it brought tears to my eyes. I loved Nicole's spirit and her temper had me laughing out loud. And underneath all of Hadrian's stubbornness he turned out to be a real sweetheart.

This is my favorite Brenda Joyce novel. Two people reluctantly drawn to one another by an attraction so strong that each is miserable in each other's company and when they are apart. For the hero is betrothed to another and our heroine was a dismal failure during her 'season'. But the heroine is strong, beautiful, intelligent and brutal enough to physically attack the hero, Hadrian, not once, but several times within the novel. Yes, the novel can be considered comical at times! I loved it and have yet to find it available for purchase (the copy I read was a library copy) and now I can order one of my favorite books on-line.

I love Brenda Joyce, but this book was barely warm compared to some of her other works like "The Conquerer" or "The Game." Yes, there was lots of scandal and propriety involved, but not enough steam to keep your interest. She can get alot juicier than this!
