controversy and, in this case, assisted true love. An enjoyable and fun reading experience.

KurzbeschreibungThe notorious favorite son of Chavistown, Texas is back, wiser, remorseful, sunbrowned and manly. Everyone seems eager to forgive all, except, of course, Prudence Belmont, the girl her left behind. Pru is no longer the sighing, lovelorn girl with her heart on her sleeve. A public jilting is an effective cure for romantic tendencies. Now, as the president of the Ladies' Rose and Garden Society, she has a social position to uphold. Gidry Chavis means nothing to her at all. Can a small ragamuffin child and some racy postcards change that? With a backdrop of a small farming community and a controversy over residential street lighting, this story of 1890s Texas is heart felt. Publishers Weekly says "Morsi is best known for the sweet charm of her novels and there is plenty of that here."
