**Von Delores Fossen : Secret Surrogate** before purchasing it in order to gage whether or not it would be worth my time, and all praised Secret Surrogate:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. An unusual story, with interesting anglesVon Ruth HansShe gets pregnat, because she knows that his biggest wish is to become a father.But if you think that they are a couple, you got it all wrong!She feels responsible for the death of his pregnat wife and secretly gets pregnant with his seed, when he seeks fatherhood with a surrogate mother.When she's in danger, nonetheless of his negative feelings for her, he hurries to her aid, because he's the police and he vowed to protect.Her pregnancy, first a punch to his soul, later will be the bond, both need to overcome the past and find a future together.Even if I'd liked for the development of the feeling's changes to be described a little bit more intensive and less sketchy, I loved the concept of this book, because it has such an unusual angle to the idea of surrogate

motherhood. And I truly loved the heroine who was so altruistic in her way to make amends for the death of the late wife of the hero, which in fact was not her fault, but only fate! This book contains much heartsickness, but it also contains much love, which in the end will overpower the shadows! I can only recommend this book and I hope that you'll enjoy it as much as I did!

**KurzbeschreibungKEEPING WATCH** The last thing this Texas sheriff wanted was to heed a frantic late-night call from the woman who'd destroyed his life. But after rescuing Kylie Monroe from hired guns and taking her under his protection, she repaid him by dropping a bombshell on his world-weary shoulders. Kylie knew that her misstep in the line of duty had cost Lucas everything. Now, as his secret surrogate, she planned to give the gruff lawman the ultimate gift to heal his heart although it would break her own. When they teamed up to expose the corrupt man behind the threats, would their glacial rift melt beneath an inferno of desire?
