characters dampen a great story arc Von Greystar The gate to the demon world is open. The last hope to stop an invasion might be a druid who survived their first attack. But Patrick cannot close the gate alone, he needs Xiao Fei. She provides her blood and her energy which he will use. They start off a bit awkward but come to rely on each other while all around them, hell breaks loose. Suddenly, vamps and wolfs are there to help the only two who might be able to seal out the demons. ** The plot is good, the banding together against a stronger foe a necessary move and we meet some folks from former books. But the idea to have sex in order to save the world is not the best solution. As the druid and Xiao appear a bit pale, the story lacks personality. The druids are a new force in the battle and still they remain a side character. This is the weakest of the books.

Kurzbeschreibung Long ago Los Angeles became Crimson City, a glittering home and sometimes battleground for humans, werewolves, and vampires. But the veil between Crimson City and the Demon World has been torn, and the demons want Earth for their own. There exist few who can oppose the Dark Ones: Patrick, the Druid's Draig-Uisge, is one. Able to shape energy to harm or heal, Patrick must first have something to bend, and such power can come from only one source: Xiao Fei, the Phoenix Tear. Xiao's blood is the key, coupled with her ecstasy. Her union with Patrick is Earth's salvation. As foes rise from every shadow, and peril infuses every caress, redemption and oblivion lay with one woman being SEDUCED BY CRIMSON. She loves dreaming up stories and playing racquetball, not always in that order. When her pro-racquetball career ended with a pair of very bad knees, she turned her attention to writing. An author of more than 30 romance novels, she's decided that life can be full of joy without ever getting up from her chair.
