The R version of Penthouse ForumVon Carol WeberI haven't felt this naughty since I sneak-peeked at my dad's "Penthouse" magazines in the Forum letters section when I was 12. You know the one, where all these creative liars wrote in trying to out-porno each other with outlandish tales of sex and conquest and well, graphic seduction.Same here in this book, a gathering of not sleazy letters to a skin rag but tales written by various scribes and edited by Lonnie Garfield. And prettified, with a plot no less.Must admit though, I skimmed through for the down and dirty parts first, my favorite being "The Welcome Home" by Saskia Walker. Because it spoke most to my own sexual fantasy of eagerly desperately greeting the man I loved and desired at the door, so starved I don't want to bother with formalities like

stripping naked. Because the language is powerfully seductive, drawing you into wanting the characters, wanting to BE the character. This, especially, had me melting on the floor: "He was animal; enclosed into a space he wanted to overcome, desperate for freedom, he roared back and forth inside the captive space. Her hips forged up against his, meeting each thrust, her hands grappling themselves free to clutch at his body." Beautiful poetry--AND HOT. None of this, *Ooh baby you're so big* embarrassment. A definite plus in catching my eye: The front cover of a naked couple lost in embrace under water. Another plus: The stories aren't just about heterosexual monogamous encounters. Something for everybody's lust if you're not too impatient for the *good* parts first like me. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Sexy, literate, and thoughtful--delicious erotica! Von W. Noble The incandescent tease (and bumblingly verbal husband) of "The Other Woman," the erotic inventiveness of "The Welcome Home," the male truth-telling of "I Wanted To," and the unwavering humaneness of the editor all make this one of the better collections of erotica in several years. We are besieged by Henry Hyde (or Kirkus Reviews) on one side, and on the other by a steady ratcheting of erotic writing toward power games and grunge. This book is a sweet-hot antidote to BOTH. Lonnie Barbach has likely done more than any other single person to help American women reclaim sexual joy. "Joyful," in fact, is a great word for these delicious little stories. Oh, and now that I think of it, Henry: you might very well enjoy "The Other Woman" as much as I did! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Good, solid erotica Von Tanja L. Walker Dr. Barbach gives her readers a nice selection of seductive, erotic fantasies in this collection. I think I enjoyed every one, for the story or for the sex, which is rare in a collection of short stories. I especially enjoyed the humor of "The Front Runner," the reconciliation in "I Wanted to," the complexity of "Under the Volcano," the unique experience in "The Last Seduction." the fun of "Double Clicked." Most of these stories actually have plots and characters readers care about, beyond merely wondering how many orgasms they will have. My only complaint is with the introductions to each section. I don't know what it is about them, but I just found them unnecessary.
