Von Maryann Jordan : Seeing Love (Saints Protection Investigations Book 3) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Seeing Love (Saints Protection Investigations Book 3) (English Edition):

of the saints couples. It not a bad book, but it didn't seem to flow quite as fluidly as the rest of the series did and probably the only one in the series I wouldn't read again. I actually like Bart and Faith more in the books later in the series, they seem to grow more as the Saints family grows. It is of course a book chock-full of gorgeous Alpha males and any time spent with the Saints is always good, their interactions and ribbing of each other exactly like that of siblings and very funny. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Great mixture of romance and suspense. Von AnnHei This book is a great addition to the Saints Protection Investigation series. I was surprised that Maryann chose a seer as the heroine for her newest novel, because her books are always rather down-to-earth, compared to other romance writers. I'm usually not into anything paranormal/psychic, so I was a bit skeptical if this would work out for me. And it did, in a big way! I could very much relate to Bart in the beginning, not believing in Faith's "gift". But I could also understand why he gradually changes his mind and eventually trusts her. Luckily, this gift stays within reasonable proportions. In fact, it is more about female intuition and emotional perception, as opposed to men's objective fact-hunting, both being complimentary in Bart and Faith's quest to find the kidnapped kid. It's very sweet to see how Bart and Faith fall for each other, slowly but surely, before they finally get tangled up in the sheets and in each other's life. No insta love, but a man and a woman discovering each other as the persons they are. And Bart is absolutely swoon worthy... Romance at it's finest!

Kurzbeschreibung Saints Protection Investigations A private investigation business, pulling together men from the CIA, FBI, ATF, DEA, Border Patrol, SEALs, and police, devoted to the missions no one else wants or can solve. A man who searches for facts: A former SEAL, Bart Taggart's career with Saints Protection Investigations fills his need to take on any mission, see it to the end, and then enjoy his down time with his friends and easy women. A man who searches for facts has no room in his life for deceivers. His world is turned upside down, when assigned to assist the FBI in searching for a kidnapped boy, he is paired with a dark-haired beauty, unlike any woman he has met. A woman who with the gift of sight: Faith Romani, a psychologist and artist, works for the local police occasionally, using her special gift of sight. Tired of hiding her gift if it can be used for good, she strives for acceptance in a world of doubters. Sparks fly when the two are forced to spend a week close together as they race toward the deadline given by the kidnappers. Will Bart be able to put aside his prejudice to accept that not all truths can be explained? Will Faith be able to understand her visions in time to save the child? Will the two of them be able to forge a partnership or possibly more? Seeing Love is a riveting novel that will hold you to the dynamic end! ***** Due to mature scenes of a sexual nature and language some may consider crude, 18+ readers only! ***** This is book s standalone, written in the Saints Series. Be warned - alpha men, strong women, suspenseful, and a sweet steamy love story!
